Charles H. Stanley

4/25/67

This employee entered on duty as a Typist on 6-24-35, in the Little Rock Field Division at a salary of $4 per day. On 8-1-36, he transferred to the Seat of Government and served as a Clerk in the Research Division, Identification Division, the Washington Field Office, the Mechanical Section and the Chief Clerk's Office. His last promotion as a clerical employee was to Grade CAF 3, $1740 per annum.

On 6-26-39 he was appointed a Special Agent. At the conclusion of his training period, Mr. Clegg said he had a fairly good appearance, was alert, intelligent, capable in practical work and should develop rapidly.

RECORD IN GRADE CAF 9, $3200: On 9-29-39, he was assigned to Oklahoma City Field Division. In November, 1939, SAC Andersen reported favorably on him. In January, 1940, SAC Andersen said his development had been steady and far more rapid than the average new Agent.

On 1-29-40, he was transferred to Philadelphia. In April, 1940, SAC Sears stated his services had been entirely satisfactory. In May, 1940, at the conclusion of his In-Service training, Mr. Hince stated he presented a rather good appearance and was interested and attentive. In May, 1940, SAC Sears said he had a good personality, was conscientious, industrious, was suitable for dangerous assignments and was steadily developing. On 6-16-40 he was afforded an increase of $100 to CAF 9, $3300 per annum.

In August, 1940, SAC Sears said he had developed steadily, was able to handle investigations of a more involved nature and his services had been entirely satisfactory.

On 8-7-40, he was transferred to New York. In October, 1940, SAC Sackett said he was developing very well generally and he was considered a good Agent. In December, 1940, SAC Sackett said his work, progress and status were entirely satisfactory and it was recommended he be reallocated to CAF 10. This reallocation became effective 1-1-41.

RECORD IN GRADE CAF 10, $3500: In July, 1941, Mr. Donegan said he was inclined to be somewhat youthful, it was believed that with additional experience he would mature satisfactorily, he handled his work satisfactorily, had a good background knowledge of the Bureau's work, was willing, conscientious, loyal and he was a good Agent who was developing satisfactorily. On 8-16-41, he was reallocated to Grade CAF 11, $3800 per annum.

RECORD IN GRADE CAF 11, $3800: In December, 1941, Assistant Director Foxworth said he had testified satisfactorily, and by letter dated 3-21-42, he was commended for the excellent work which he had done in the Ludwig case. By letter to the Bureau dated 3-11-42, the U. S. Attorney, Southern District of New York, commended this Agent and others for their work in connection with that case.

In April, 1942, Mr. Foxworth said he made a favorable impression, had a good knowledge of the Bureau's work, his judgment was good, he required a minimum of supervision, his paper work was good, he was very enthusiastic and it was believed he had some latent executive ability. On 5-1-42, he was reallocated to Grade CAF 12, $4600 per annum.

RECORD IN GRADE CAF 12, $4600: In March, 1943, SAC Conroy said he had been found to be wholly trustworthy, reliable, was interested, resourceful, had initiative, was a good dictator, an experienced witness, was physically and temperamentally capable of handling dangerous assignments, was thoroughly experienced in handling physical surveillances and

definitely had above average ability in that regard, was very good in report writing, made a good impression in his contact, definitely had ability to organize and initiate investigations, he had been exclusively assigned to the Special Espionage Case Desk and his work in that regard was definitely above the average and he had demonstrated he had potential supervisory and administrative ability.

By memorandum dated 5-17-43, Mr. Glavin advised he spoke to this Agent during his attendance at the National Defense Supervisors School; that he had a good background generally of the Internal Security set-up in New York but Mr. Glavin would not at that time recommend him for a supervisory position entailing the supervision of a large number of agents; that he needed more maturity of action, was still a bit nervous and jumpy and probably would transmit such nervousness to any group of Agents whom he was supervising. There was not any doubt as to his loyalty to the Director and his personal ability to handle any case assigned to him and it was believed he could further develop in the service.

By letter dated 8-11-43, he was commended for his excellent work in the Lehmitz case. During an inspection of the New York Office in March, 1943, Mr. Pennington said he was self-confident, presented a good appearance, knew his cases, met people very easily and it was felt he was an excellent field man and his status was VERY GOOD.

On 3-31-44, SAC Conroy rated him EXCELIENT and said he had considerable initiative and resourcefulness, had been Supervisor of the Major Case Desk for the past two months, his work in handling many of the major espionage cases of the New York Office had been excellent, he had demonstrated he had some supervisory and administrative ability, was hardworking, loyal, made a favorable impression in contacting people, had considerable experience in organizing and initiating investigations concerning espionage activities and he willingly accepted responsibility.

During In-Service Training in April, 1944, Mr. Treadwell said he presented an excellent appearance, a mature personality, was very friendly, had excellent poise and conversational ability, appeared to have good judgment and he created the impression that he definitely had supervisory and administrative ability. In May, 1944, he was afforded administrative firearms training and was authorized to conduct field office firearms training.

During an inspection of the New York Office in September, 1944, Inspector Harbo said he made a good appearance, had a friendly personality, was experienced, well poised, reliable, impressed as being very sincere, as an Agent he was entitled to a rating of EXCELLENT, as a Supervisor Mr. Harbo said he would rate him VERY GOOD. On 1-1-45, he was afforded a $200 increase in CAF 12, $4800 per annum under the provisions of the Uniform Promotion Act.

By letter dated 12-30-44, the Bureau advised SAC Conroy that this Agent had been designated an approved Bureau speaker.

On 3-31-45, SAC Conroy rated him EXCELLENT and said there were approximately 60 Agents under his supervision, he had demonstrated he had supervisory and administrative ability, was hard working, loyal, had a good knowledge of the Bureau's work, his dictating ability was very good, he made a very good impression as a witness, his firearms ability was rated as excellent, he had the ability to contact law enforcement officials and made a favorable impression and he was qualified to handle all types of investigations within the Bureau's jurisdiction.

On 4-14-45, he was transferred to Little Rock. By letter dated 6-20-45, he was congratulated for his ten years of service with the Bureau and he was awarded the Ten Year Service Key.

On 6-27-45, SAC Morley rated him EXCELLENT and said he made a good appearance, had a better than average personality, was industrious, enthusiastic, forceful, aggressive and worked without regard to personal consideration, was very good in dictation and as a witness, was above average in the supervision of firearms training, it was felt he was an outstanding Agent, his attitude, enthusiasm and loyalty to the Bureau were all that could be asked, and it was felt he was well qualified to be a Bureau supervisor, a Field Supervisor and as an Assistant Special Agent in Charge of a small field office. On 7-1-45, he was afforded an increase to CAF 12, $5390 per annum under the provisions of the Federal Pay Bill.

Mr. J. S. Rogers interviewed him during In-Service Training in July and August, 1945 and said he made a good personal appearance, was very friendly and had a pleasant type of personality and he was enthusiastic and appeared to be interested in his work as an Agent.

By memorandum dated 8-2-45, Mr. R. G. Fletcher recommended that he be considered for a meritorious increase in salary in view of the outstanding work performed by him in connection with the PAT J CASE: MICASE, ESPIONAGE - G. This meritorious increase became effective 9-10-45 and his salary was increased to $5600 per annum in Grade CAF 12.

On 1-16-46, he was designated Assistant Special Agent in Charge of the Little Rock Field Division. On 3-31-46, SAC Morley rated him EXCELLENT and said he made a very good personal appearance, had an excellent personality, had the desirable degree of force and aggressiveness and he was resourceful, industrious and enthusiastic. It was SAC Morley's opinion that he was an outstanding representative of the Bureau. He was considered very good in ability to dictate, was well qualified for the handling of dangerous assignments both from participation and a supervisory standpoint. He had had considerable experience on a physical surveillance and was well qualified for such work, his reports were excellent and required no supervision, he was well regarded by law enforcement officers and others with whom he came in contact and he could organize, initiate and assume full responsibility for any type of Bureau investigation other than accounting. He had demonstrated he was possessed of supervisory, administrative and some executive ability and he had shown a capacity for getting along well with those persons who were subordinate to him and it was believed he was definitely above average as an administrator.

As a result of a basic increase in pay, effective 7-1-46, and a promotion under the provisions of the Uniform Promotion Act, his salary was changed to $6623.40 per annum in Grade CAF 12.

In a memorandum dated 10-3-46 to Mr. Tolson, Mr. Hendon stated he saw ASAC Stanley during his attendance at In-Service Training School. He advised he was a very friendly type of individual, who seemed to have a good grasp of his responsibilities, and one who had an intense loyalty to the Bureau and to the SAC. Mr. Hendon further stated he was probably an excellent Assistant, particularly in the Little Rock Office, but it was not believed that from the general salesmanship angle he was qualified for the position of SAC.

In a memorandum dated 10-9-46, Mr. Morgan stated that ASAC Stanley was qualified to assist on Inspections at that time.

On 1-14-47 Mr. Hendon stated he was a thoroughly loyal and capable individual who was considered an excellent desk man although it was doubtful that his personal qualifications were such as to make him an outstanding Agent in Charge. Mr. Hendon further stated that it was felt his present responsibilities and his ability merited his reallocation to Grade CAF-13. In an addendum dated 1-23-47 Mr. Hendon advised that SAC Morley had reported Agent Stanley was a reserved individual and perhaps if he had a weakness it was on making outside contacts and handling public relations. However, Mr. Morley stated he was thoroughly capable and was always willing to give the Bureau everything that was in him, was thoroughly loyal and one of the most conscientious men he (Morley) had ever known. Mr. Tolson recommended consideration at a later date and the Director concurred.

On 3-31-47 SAC Morley rated him EXCELLENT and said he had the necessary degree of force, aggressiveness, resourcefulness, industry and was definitely above average in enthusiasm. He was considered an excellent dictator, a very good witness, a qualified Bureau administrative firearms man and he had handled limited physical surveillances in above average fashion. His reports were excellent and required no supervision, he was well regarded by law enforcement officers and other contacts, he was capable of organizing, initiating without supervision, had assisted in the supervisory work on the desk of the Agent in Charge, and had been given an opportunity to handle all administrative aspects of a Field Office. He was possessed of ability as a supervisor, administrator, and executive and was considered a thoroughly capable and cooperative representative of the Bureau.

During an inspection of the Little Rock Office in April, 1947, Inspector Gurnea advised he presented a good appearance, had a warm, friendly personality that should enable him to develop friends very easily, as yet his supervisory ability was limited. His prospects of continued development were very good and he was a satisfactory ASAC for a small office.

On 8-2-47 he was transferred to the Security Division in the Bureau as an Agent Supervisor and in his transfer efficiency report, SAC Morley rated him EXCELLENT and stated that he was above average in industry, enthusiasm, force, aggressiveness and resourcefulness, he had displayed tact, judgment and was well liked by his associates. The SAC said he had supervised a desk, handling various matters and had exhibited supervisory, administrative, and executive ability to a marked degree.

In a special efficiency report dated 12-17-47 Mr. Wall rated him EXCELLENT and stated he had taken an active part in setting up the Bureau's Loyalty Program, had impressed him with his complete devotion to his work, his loyalty to the Bureau and his ability to get a job done. Mr. Wall added that he had indicated that he had a thorough grasp of the desires of the Bureau and was doing a very outstanding piece of work. Due to his lengthy and varied experience in the Bureau, the outstanding work he had performed in connection with the Loyalty Program, his absolute devotion to the Bureau, he was strongly recommended for consideration for promotion to Grade CAF-13.

On 1-24-48 he was considered for reallocation to Grade CAF-13, however, inasmuch as he did not fulfill the reallocation requirements, it was recommended and approved that he be passed over at that time.

On 1-25-48 he was promoted to $6862.80 per annum in Grade CAF-12 under the provisions of the Uniform Promotion Act.

During an inspection of the Security Division in February and March, 1948, Mr. Ladd reported he had been utilized exclusively in the supervision of cases being investigated under the Loyalty Program, he was an extremely hard worker, conscientious and very efficient. He was entirely loyal to the Bureau and his work required a minimum amount of supervision. Inspector Harbo said he was of average appearance and above average personality. He had been observed during the inspection to be an extremely active, interested and conscientious Supervisor. It was thought he had possibilities of accepting additional responsibility.

In a memorandum from Mr. Wall to Mr. Ladd dated 3-20-48 submitting the names of Agents to be considered on a long range basis for development as Special Agents in Charge it was stated that he had served for approximately two years as ASAC in the Little Rock Office, he was well acquainted with Bureau office administration and had been assigned to the Bureau for approximately eight months which had given him a good insight into the procedures followed at the Seat of Government. He was a mature, experienced agent who had handled some very important work during the time he had been in the Bureau, he had clearly indicated that he possessed good judgment, was capable and efficient. He had a pleasing personality, was well liked by his fellow employees and highly respected by them, he was available to serve in any type of territory or offices in the Bureau, and it was recommended that he be considered under that program.

On 3-24-48 Mr. Wall advised this Agent had served as supervisor of the major case desk in the New York Office for two years, had been commended by the Director on two occasions for the excellent manner in which he had handled certain major espionage investigations, had served as ASAC in the Little Rock Office where he performed his duties in an excellent manner and had been very instrumental in setting up the Loyalty Program at the Seat of Government. At the present time he was in charge of a unit of approximately twenty-four supervisors who reviewed files, and wrote letters to the field opening investigations, his position required a thorough knowledge of the policies controlling the Loyalty Program and he had performed his duties in an excellent manner. He was physically capable of performing any type of duties assigned to him, and he was an extremely hard worker who was entirely capable. In view of his extensive experience in the Bureau and having served in a supervisory capacity since 1943, Mr. Wall strongly recommended that consideration be given to his reallocation to Grade CAF-13. He was available for transfer wherever the Bureau had a need for him.

On 3-31-48 Mr. Wall rated him EXCELLENT and stated he had served as a supervisor in the Loyalty Section since August, 1948, and had shown an outstanding ability to acclimate himself to working conditions at the Seat of Government. Since the inception of the Loyalty Program he had devoted his entire time to supervisory work in connection with that program and had done outstanding work in every respect. He had a thorough knowledge of the duties which were assigned to him and discharged such duties with a minimum of supervision, he was actively interested in his work, and devoted a large amount of his own time to promoting Bureau work. At the present time he was serving as Number One Man in the Loyalty Section and was in charge of approximately thirty-five agents whose duties were to open loyalty investigations, he was capable of testifying forcefully and convincingly, was fully capable of handling any dangerous assignment which might be given him. He was in every respect, an outstanding employee.

On 4-18-48 he was reallocated to Grade CAF-13, $7102.20 per annum.

RECORD IN GRADE CAF 13, $7102.20: On 7-11-48 he received a basic salary increase to $7432.20 per annum.

By memorandum dated 8-25-48 Mr. Ladd was advised to instruct him to attend the one day Supervisors Training Course on 9-3-48.

On 10-27-48 Mr. Ladd rated him EXCELLENT and stated that he continued to maintain the high standard of work as was reflected in the efficiency report submitted on him on 3-31-48. He was a very efficient employee, entirely loyal to the Bureau, intelligent and respected by his fellow employees. He was in good health and available for transfer wherever the Bureau might see fit to send him; he was a qualified Bureau speaker and frequently had handled lectures in connection with the Loyalty Program; he had continued to familiarize himself with the over-all policies of the Bureau and continued to exercise extremely good judgment in making decisions and in carrying them out.

In a memorandum for the Director, dated 11-16-48, Mr. Nease listed him among four other Special Agent Supervisors who appeared as lecturers before the 11-1-48 In-Service Class, which he had attended, who impressed him as being exceptionally well versed in their lectures and answered questions in a straight forward and very comprehensive manner. He stated that Agent Supervisor Stanley lectured on Loyalty and seemed to be familiar with every phase of the subject and was able to fully and completely answer all questions. His lecture was easily followed.

On 12-14-48 Mr. H. B. Fletcher submitted his name for consideration on long range basis for development.

On 2-20-49 he was afforded an award for superior accomplishment to $7671.60 per annum in Grade CAF-13. That award for superior accomplishment was because of the outstanding manner in which he had performed his regularly assigned duties plus particularly his outstanding services in connection with the supervision of a large group of agents being trained on a special project.

On 3-31-49 Mr. Ladd rated him EXCELLENT and said he was presently No. 1 man in the Loyalty Section. He had done outstanding work in every respect, he had had the responsibility of supervising an average of from fifteen to forty supervisors during the past year. He had clearly shown that he possessed administrative ability, he was a good speaker and he had lectured to In-Service and New Agent Training Classes. He was an enthusiastic worker, he was entirely loyal to the Bureau, he made a good personal appearance, he was healthy, and he was available for transfer wherever the Bureau might see fit to use him. He definitely possessed administrative ability and was an outstanding Agent in every respect.

During an inspection of the Security Division in June, 1949, Inspector Gurnea stated that he presented a good appearance and had an above average personality. He was particularly loyal, conscientious and enthusiastic. It was believed he was thoroughly dependable and could be relied upon to put forth his best efforts. He was a very satisfactory Seat of Government Supervisor.

He was afforded a Uniform Promotion to $7800 per annum, and a basic salary increase to $8000 per annum, in Grade GS-13, effective 10-30-49.

On 1-20-50 he was designated Chief of the Loyalty Section.

On 3/31/50 Inspector Belmont rated him EXCELLENT and said he had a great deal of enthusiasm, he worked exceptionally hard and long hours, and he had had a great deal of experience. He had done a good job in connection with the Loyalty Program. As Chief of the Loyalty Section he had been confronted with a number of problems of a special nature, he had handled the same and had afforded the Supervisors under him effective direction in connection with their work. He was extremely loyal and could be counted upon to put forth his best efforts in connection with his duties.

By letter dated 5/25/50 he was commended for his fine spirit and devotion to duty which he manifested in the expeditious completion of a recent special assignment. (Preparation of material in response to a subpoena issued to the Department by the Tydings Committee regarding Loyalty of Government employees.)

He attended In-Service Training from 6/26/50 to 7/7/50.

By memorandum dated 9/8/50 his name was submitted as one to be considered for advancement in the Bureau.

During an inspection of the Security Division in October, 1950, Inspector Harbo said he was extremely conscientious, he had done a very satisfactory job as Chief of the Loyalty Section, he had been successful in maintaining high morale among his employees, he had done an excellent job and was very well qualified for his position.

During October, 1950, he performed 3 hours and 39 minutes voluntary overtime daily - the office average was 1 hour and 2 minutes; during November he performed 4 hours and 25 minutes - the office average was 2 hours and 15 minutes; during December he performed 2 hours and 53 minutes - the office average was 2 hours.

By letter dated 2/15/51 he was commended for the splendid over-all supervision he afforded the Perjury case involving William Walter Remington.

On 2/24/51 Mr. Laughlin recommended that he be reallocated to GS-14. Mr. Belmont concurred.

Effective 3-18-51 he was reallocated to Grade GS-14, $8800 per annum.

On 3-31-51 Mr. Belmont rated him SATISFACTORY and said he had been associated with the Loyalty Program since its institution. He had a thorough knowledge of that field and had shown his ability to impart his knowledge and instructions to the employees under him. He was an extremely hard-working employee. He voluntarily put in long hours in connection with his duties and he followed the important matters in his Section personally and closely. He was a well-qualified, loyal employee who was doing a good job, he was competent to handle assignments of any nature, including those of a very complex nature, and his dictation and paper work were very good. He had no

physical disabilities or impediments which would interfere in any way with his use on dangerous assignments. He was rated in the upper limits.

By letter dated 5/19/51 he was CENSURED as a result of two instances in which an unwarranted delay occurred in the handling of Loyalty investigations in his section. In the matter involving [redacted] a Department of Commerce applicant, it was noted that although the Civil Service Commission referred certain information concerning [redacted] to the Bureau for consideration on 12/8/50, the results of a preliminary inquiry in that matter were not forwarded to the Civil Service Commission until 3/12/51, over three months later. In the case involving [redacted] material was received from the Civil Service Commission on 12/16/50, but a preliminary inquiry was not ordered until 1/17/51, and the results of that inquiry were not furnished the Civil Service Commission until 4/4/51. On 1/31/52 Mr. Belmont submitted his name to be considered on a long range basis for development.

He had been associated with this type of work since practically the initiation of the program. He was extremely conscientious and was a very hard worker. He averaged approximately 3 hours 20 minutes overtime per working day during this rating period, and he followed the work in the Loyalty Unit very closely and had had considerable success in not only reducing but practically eliminating any delinquency in his Unit. He had served on the desk of the Section Chief from time to time and had handled that assignment satisfactorily.

He was

already aware that the Chairman of the Board had informed the Bureau that the Board's file on this individual was top secret, that only one copy was available, but that upon proper clearance, he would make it available for review by Bureau agents. In an effort to comply with the above-mentioned instructions, the investigating agents requested to have the Davies file photostated, with the result that the Chairman again contacted the Bureau to point out that he was unable to comply with this request. This situation should have been foreseen by him at the time the instructions to the Washington Field Office were issued, and his failure to display sufficient alertness in this matter was obvious.

On 3-31-53 Mr. Belmont rated him SATISFACTORY and said he was Chief of the Loyalty Section. He had been associated with the Loyalty Program practically since its inception and because of this experience he had a thorough understanding of the Program's complexities and problems. He had a good attitude, was most cooperative, thoughtful of others, and very definitely interested in his work. He was amiable but firm, he made friends readily, and he created a very good impression on others with whom he came in contact. He worked closely with those in his Section and, through this personal follow-up system, had been able to keep down the delinquency in his Section while at the same time maintaining a good spirit and high morale. He had a tremendous amount of enthusiasm, he was exceptionally loyal to the Bureau, and his extreme industry set a good example for others in the Section. He had substituted on the desk of the Branch Chief from time to time and had handled this assignment satisfactorily. He was available for general and special assignment.

By letter dated 4-1-53 he was CENSURED for his failure to promptly review and approve an air-teletype instructing the New York Division to conduct certain additional investigation in connection with the loyalty investigation relating to [redacted]. At the time in question, the investigation was already delinquent, and accordingly, his dereliction was all the more inexcusable. The air-teletype was delayed for six days. b6 b7C

It had been observed that although he stated he carefully reviewed this memorandum he did not detect the fact that it contained an erroneous statement as to the number of cases in which Matusow had

furnished information and he was considered to have been very derelict in this regard.

By letter dated 3-25-55 [redacted], Personnel Security Officer, National Labor Relations Board, expressed his appreciation for the Bureau's cooperation since he had been Personnel Security Officer, and he also expressed appreciation to this Agent for his courteous and prompt service. On 3-30-55 the Bureau acknowledged his letter. b6 b7C

On 3-31-55 Mr. Malley rated him SATISFACTORY and said he had continued to perform as Section Chief of the Employees Security Section. He repeatedly had given freely of his own time to assist and guide the supervisors in his section when serious problems had arisen. He had substituted on the desk of the No. 1 Man in charge of the Name Check, Special Inquiry, and Employees Security Section from time to time and had handled that assignment satisfactorily. He was mature in his judgment, and was well qualified to continue in his present assignment and was capable of further advancement in the Bureau.

His daily overtime average for March, 1955, was 5 hours 38 minutes.

By letter dated 4-5-55 he was CENSURED inasmuch as the Bureau had carefully considered the circumstances pertaining to the delay which occurred in completing the Security of Government Employees investigation relating to Herbert Wayne Mattingly and it had been observed that there was an undue delay on the part of one of the Special Agent Supervisors in his section in advising the Bureau Laboratory of the existence of certain specimens of handwriting in the Bureau's files. As a result the identification of a signature by the Laboratory was retarded.

By letter dated 4-28-55 he was CENSURED inasmuch as an Agent under his supervision recently failed to aggressively supervise a phase of the Security of Government Employees case concerning Edward Frederick Corsi to insure that the investigation by the field could be promptly instituted by other personnel. In addition, the lack of proper organization and training in his section resulted in an additional delay in the ordering of that investigation while a cover memorandum was being written and rewritten.

By letter dated 8-11-55 he was CENSURED in connection with the handling by the Loyalty Section of a phase of the Loyalty of Government Employees investigation regarding Nancy Anne Haycock. It had been observed that a memorandum from another Government agency dated 7-12-50, regarding this case was received in the Loyalty Section on 7-14-50, and although it was referred to the Liaison Section for discussion with officials of this other agency, no record of the handling of this matter was made for Bureau files. The loose manner in which this matter was handled by personnel of the Loyalty Section was a serious reflection on his supervision of that section.

His daily average overtime for August, 1955, was 4 hours 59 minutes.

By letter dated 9-6-55 he was CENSURED inasmuch as the Bureau had carefully considered the facts developed regarding the inefficient handling in his section of a phase of the Security of Government Employees case involving [redacted]. Information regarding one [redacted] was submitted by the New York Office and an agent supervisor in his section took appropriate action to advise the Department concerning the matter and to institute the necessary Security of Government Employees investigation. However, this material clearly indicated that the Los Angeles Office had delayed in disseminating the information regarding [redacted] and the agent supervisor failed to prepare at the same time a communication requesting explanations from employees responsible for the delay. It was apparent that this supervisor was not properly indoctrinated regarding the responsibilities of his position. Also, it should have been apparent to him (SA Stanley) that the employees who prepared and approved the communications in his section in this case and failed to take all necessary action simultaneously were derelict in the performance of their duties and it was his responsibility to recommend appropriate administrative action. Mr. Clayton's memorandum to Mr. Tolson dated July 13, 1962, indicated I had received a call from the McClellan Committee on June 29, 1962, regarding [redacted] and [redacted]. The Director inquired as to whether I had sent through a memorandum. b6 b7C

In answer to the Director's question, I did not prepare a memorandum at the time I received this call. Immediately upon receipt of this call, I contacted Section Chief Welte and advised him of the request from the McClellan Committee. He advised that the matter would be handled. I, therefore, prepared no memorandum setting forth this telephone call. It is noted that at the time I received this call [redacted] and [redacted] were under subpoena by the McClellan Committee and were expected to testify momentarily. b6 b7C

ADDENDUM (7/16/62);

It is noted that Stanley took this call from [redacted] of the McClella.. Committee, in my absence. This call is typical of the numerous matters received each day in my office relating to the work of some other division in the Bureau, and which require referral to another division for action. In this instance, had Stanley written a memorandum, it would of necessity have had to be referred to the General Investigative Division for background information and appropriate action; nevertheless, the telephone call should have been made a matter of record and, accordingly, a letter of censure to Stanley is recommended. b6 b7C

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of $10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Dear Mr. Stanley:

You exhibited extremely poor judgment on June 29, 1962, when you failed to prepare a memorandum regarding an important telephone call you received in connection with the Billie Sol Estes case. Your explanation in this instance has been carefully considered but you were clearly derelict on that occasion.

Hereafter, you will be expected to make certain that such matters are promptly set out in written form both for my information, where indicated, and for the Bureau's files. It will be incumbent upon you to insure that you are not again responsible for an omission such as that referred to above.

PERSONAL ATTENTION

Mr. Courtney A. Evans
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Evans:

I have reviewed the results of the recent inspection of the Special Investigative Division, and, based on the Inspector's findings, the various operations are rated as follows: Physical Condition and Maintenance, Investigative Operations, Administrative Operations and Personnel Matters - Very Good; Contacts - Excellent.

The space occupied by your Division was found to be well organized, neat, tidy and businesslike in appearance. Minor housekeeping delinquencies which were detected should be corrected. While the greater part of your space has recently been painted, you should follow to insure the painting of the remaining space is completed as soon as possible.

Your record of fugitive apprehensions since the last inspection is indeed commendable. Although the Criminal Informant Program was rated very good, close supervision must be given this program to increase the number and quality of criminal informants.

It was found that your Criminal Intelligence Program is receiving imaginative and aggressive leadership and that these investigations and the investigations of violations of the recently enacted antigambling legislation have contributed to the successful prosecution of many racketeering figures and disrupted local and national gambling activities. Continued emphasis should be placed on microphone installations and the development of Top Echelon Informants in the Criminal Intelligence Program. Close attention must be given to accuracy to avoid errors of form of the type detected during the inspection. Field offices should continue to be followed to reduce the field delinquency in the four classifications which exceeded the field delinquency average for the past six months.

Mr. Courtney A. Evans

The increased work load resulting from new legislation has been adequately absorbed by your Division and the work was found to be equitably distributed and efficiently organized. Two one-man units in the Employees Security and Special Inquiry Section should be combined with larger units to improve over-all supervision.

The production of stenographers assigned to your Division was found to be below the Seat of Government average. Close supervision should be given less experienced employees and their progress should be reviewed to improve productivity.

The research which is being conducted regarding a comprehensive document to instruct the field in policies and procedures pertaining to the Criminal Intelligence Program should be expedited.

Training programs for Division personnel were found to be well planned and effective. Your employees demonstrated an enthusiastic attitude during the inspection and their morale is considered excellent. The personnel of your Division was found to be adequate but not excessive. If the case load in the Unlawful Flight Unit continues to increase, the work should be analyzed to determine whether additional personnel are required to adequately handle the work.

The voluntary overtime of Special Agent personnel was found to be substantial, productive and equitably distributed. You should closely follow this matter to insure the equal distribution of work load on a continuing basis.

Your liaison with high Government officials has been handled in an excellent manner. The Division's liaison with the Department and other Government agencies on a working level was found to be effective and this should be continued.

The findings of the Inspector have been called to your attention during the inspection. You should carefully study the various inspection papers and review the comments and instructions with your supervisory staff. The Inspection Division should be advised promptly of action taken by you to correct the deficiencies detected during the course of the inspection.

Sincerely yours,

John Edgar Hoover
Director

CHARLES H. STANLEY
INSPECTOR, NUMBER ONE MAN
EOD June 26, 1939
GS-17, $16,530

ASSISTANT DIRECTOR EVANS: Mr. Stanley, Number One Man in the Division, has acted in my absence on numerous occasions. His last performance rating showed him to be outstanding and he has continued to perform his duties in a similar manner. Mr. Stanley, on July 17, 1962, received a letter of censure for failure to prepare a memorandum regarding a telephone call which he received for me in my absence. This telephone call related to work of another division in the Bureau and is typical of the numerous matters received by me in this regard. Despite this, Stanley is still entitled to a rating of outstanding.

INSPECTOR J. K. PONDER: I concur with the comments of Mr. Evans. Stanley continues to function most effectively as No. 1 Man to Assistant Director Evans. (JKP:ejw 10/8/62) He was censured 7/17/62 for failure to record receipt of a telephone call from a representative of the McClellan Committee in connection with the Billie Sol Estes Case. He had not previously been censured since 1956. He was commended 2/5/62 for directing and coordinating the investigation in an Interstate Transportation in Aid of Racketeering Case. He received an "Outstanding" annual performance rating 3/31/62 and a cash award of $400 in connection with that rating on 5/11/62. For further comments regarding Mr. Stanley see the memorandum from J. F. Malone to Mr. Tolson dated 10/4/62 which summarizes the results of the inspection of the Special Investigative Division.

Memo to Mr. Tolson
Re: Inspection - Special Investigative Division

DETAILS

PHYSICAL CONDITION AND MAINTENANCE . . . . . VERY GOOD

Since the last inspection the Division has been relocated and the crowded condition which existed before has now been alleviated. Division space is all on the first floor of the Justice Building with the exception of a portion of Employees Security and Special Inquiry Section which is on Seventh Floor. Sections and Units have contiguous space for good supervision and control of personnel with the above-mentioned exception. Scheduled repainting of entire space occupied by the Division is two-thirds completed. Space was found to be generally neat and tidy and businesslike in appearance. Minor housekeeping delinquencies noted and ordered corrected.

INVESTIGATIVE OPERATIONS . . . . . VERY GOOD

Fugitive Apprehensions in fiscal 1962 increased 17% (6,573 to 7,715) and up 27% in first two months of fiscal 1963. Large increase due mainly to broadening of Unlawful Flight Statute in October, 1961. Criminal Informant Program rated very good. Since last inspection number of criminal informants decreased 0.3% (2,771 to 2,828) but potential criminal informants increased 0.2% (6,982 to 7,131). Criminal Informant Program effective and quality substantially improved based on comparison of statistical accomplishments produced by informants in 1961 and 1962.

Criminal Intelligence Program receiving imaginative and aggressive leadership. 74 notorious racketeers under intensive investigation. Microphone surveillances have proved highly effective. Since last inspection microphone installations increased 248% (23 to 80). Top Echelon Informant Program extremely successful resulting in development of 30 highly placed informants. Criminal Intelligence Program has contributed to successful prosecution of many racketeering figures. Intensive investigations of "Criminal Commission" and "skimming operation" of Nevada Gambling Industry aimed at prosecution of leading hoodlums.

Anti-gambling legislation enacted 9/61 has resulted in 108 arrests, 12 convictions and fines, savings and recoveries of $42,000. This legislation and Bureau's investigations have severely disrupted local and national gambling activities.

During fiscal 1962, 11,269 applicant-type investigations, many of which involved highly placed individuals, were conducted by the Bureau and an additional 2,456 in the first two months of fiscal 1963. Volume has leveled off since new Administration has become established. These cases being handled promptly.

320 pending cases reviewed during inspection, including those considered most important by Division. No substantive errors noted; 7 form errors detected (2%). Field delinquency in four classifications has exceeded field delinquency average of all cases for past six months and instructions issued to reduce.

ADMINISTRATIVE OPERATIONS . . . . . VERY GOOD

Assistant Director Evans affording personal guidance in supervision of operations and administration of Division. Other officials and supervisors adequately supervising field operations. Since last inspection case load increased 25% (19,959 to 24,958) primarily due to new legislation. Work load of Division equitably distributed in three Sections and efficiently organized. Two units ordered combined with larger units to improve over-all supervision. Surveys indicate work being handled promptly.

Employees Security and Special Inquiry Section missed deadline in processing applicant-type mail in 3.2% of 244 files reviewed. Instructed to improve.

Stenographic production averaged 2.60 pages per hour, below Seat of Government average of 2.79 pages per hour. Several stenographers are new, relatively inexperienced and still in training period. Division instructed to review their progress to improve productivity.

Division conducting research towards preparation of comprehensive document to instruct the field regarding policies and procedures pertaining to Criminal Intelligence Program; instructed to expedite. Since last inspection, special training for field in Criminal Intelligence Program included field conferences and special In-Service classes. Specialized fugitive In-Service training also conducted in view of increased work load in fugitive cases arising from new Unlawful Flight legislation.

PERSONNEL MATTERS . . . . . VERY GOOD

Training programs and conferences to instruct Division personnel well-planned and effective. Officials and supervisory personnel have excellent understanding of policies and operations, are giving constructive and imaginative guidance and are contributing materially to improve Bureau operations. Employees found to be enthusiastic and morale considered excellent. Total personnel 174.

Agent complement reduced from 73 to 59 since last inspection primarily by returning to field agents on loan to Division to handle peak work load in Special Inquiry cases for Kennedy Administration. Five Special Agent supervisors still assigned to Division on loan; recommendation being made separately to make these positions permanent because of continuing need. Division recently requested one additional Reviewer-Analyst to assist in handling greatly increased volume of Unlawful Flight cases. Inspector concurred with request and it is presently being approved in Administrative Division. With this addition, personnel will be adequate but not excessive. Voluntary overtime for three months ending August, 1962, 2 hours, 23 minutes, productive and equitably distributed. No overweight agents or agents on probation. Two agents on limited duty -- justified; both handle their share of work load.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

+ Outstanding (exceeding excellent and deserving of special commendation).
E Excellent.
√ Satisfactory (good or very good).
− Unsatisfactory.
O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

1. "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
2. "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
   A. Any element rated "Unsatisfactory" must be supported by narrative comments.

ADJECTIVE RATING: OUTSTANDING EMPLOYEE'S INITIALS ____
Outstanding, Excellent, Satisfactory, Unsatisfactory

Throughout the past year Stanley has continued to serve as a Number One Man in the Special Investigative Division. He is a thoroughly experienced and most capable Bureau executive. In my many absences he has directed the work of the division in an outstanding manner resulting from his highly developed organizational and administrative capabilities.

Stanley is always outstanding in personal appearance. He has had the opportunity of assisting in making contacts on a high level in Government, professional and business circles. The results of such contacts have been exceptionally effective. Stanley is in excellent physical health and has energy and drive to accomplish the most difficult task. He has consistently demonstrated his initiative, resourcefulness and mature judgment which are a part of his highly successful executive abilities.

Stanley has shown outstanding ability in planning both his work and that of his subordinates and has not only produced exceptional volume but has been meticulous in accuracy as to pertinent details. His interest in his work and in the Bureau as a whole is intense and he has clearly shown exceptional abilities when working in times of stress. His knowledge as to Bureau policies, procedures and investigations in relation to the work of this division clearly qualifies him as an expert in this field.

During the rating period Stanley has been outstanding in all phases of his work.

OUTSTANDING ANNUAL PERFORMANCE RATINGS

There are attached for approval the annual reports for Messrs. Stanley, Malley, Wick and Waikart in which their services have been rated Outstanding for the period 4-1-62 through 3-31-63. Mr. Belmont has signed the ratings of Messrs. Stanley and Malley and I have signed the ratings of Messrs. Wick and Waikart as Reviewing Official.

Messrs. Stanley, Malley and Wick were rated Outstanding on their 1962 annual performance ratings. No severe administrative action has been taken against these men with the exception of Mr. Malley who was censured and placed on probation 7-11-62 for deficiencies in handling of Billie Sol Estes case; however, in view of the successful conclusion of this case and other meaningful accomplishments of the General Investigative Division the Outstanding rating for Mr. Malley appears appropriate.

In the event you approve these ratings, I respectfully request that the Director sign both the original and the copy of each as Approving Official. Upon receipt of all ratings from the Seat of Government and the field, these and other Outstanding ratings will be transmitted to the Department for approval by the Efficiency Awards Committee. Messrs. Stanley, Malley, Wick and Waikart will then be entitled to cash incentive awards in the amount of $400 as has been approved in the past for those below the level of Assistant Director who are in Grade GS 16 or above. Messrs. Stanley, Malley and Wick are in Grade GS 17 and Mr. Waikart is in Grade GS 16.

employees). Reduction of 10 employees (3 Agents, 7 clerical) accomplished despite 12.3% increase in case load of Division. Present Agent and clerical personnel adequate, not excessive.

Voluntary overtime for 3-month period, July - September, 1963, averaged 2'20"; productive and equitably distributed. No Agents overweight or on probation. One Agent on limited duty - justified; continues to handle his full share of work load and to receive premium pay benefits. Since last inspection, personnel of Division have received 11 Outstanding Performance Ratings (5 Agents, 6 clerical); 22 quality increases or incentive awards (15 Agents, 7 clerical); and 97 letters of commendation (78 Agents, 19 clerical).

CONTACTS . . . . . EXCELLENT

Assistant Director Evans continues to maintain excellent contacts in Bureau's behalf with Attorney General, Cabinet officers, members of White House Staff, Senators and Representatives, and other highly placed Government officials. Legislative matters pertaining to work of Special Investigative Division closely followed, well coordinated within Division and with other Divisions of Bureau. Section and Unit supervisors maintain effective liaison and working relationships with Department and other Government agencies to further Bureau's work and protect its interests.

NARRATIVE COMMENTS

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION.
UNSATISFACTORY ratings must be supported by a statement in writing stating (1) WHEREIN the performance is unsatisfactory, (2) the facts of the (90 day) PRIOR WARNING, and (3) the efforts made AFTER THE WARNING TO HELP the employee bring his performance up to a satisfactory level.

During the past year, Stanley has continued to serve in an outstanding manner in his position as Inspector, Number One Man, Special Investigative Division. In the frequent absences of the Assistant Director, he has, because of his organizational and administrative capabilities, directed the work of the division in a most capable manner. His many years of experience have been translated into a most able executive capacity.

During the rating period he has proved his exceptional and highly successful administrative and executive abilities. Sound judgment, initiative, resourcefulness and aggressiveness shown by him have resulted in an outstanding record for the year.

Stanley's contacts have continued to be most effective, both on a high level within the Government as well as in prcfessional and business circles. He has devoted great interest and intense energy to his work and is particularly stable in times of stress. This is evidence not only of his excellent physical health but his desire to overcome difficult obstacles. His mature judgment contributes substantially to his highly successful executive capabilities. Stanley has an outstanding knowledge of Bureau policies and procedures and is an expert in the matters handled in the Special Investigative Division.

Stanley's record during the past year clearly shows he is outstanding in all phases of his present assignment.

SUBJECT: CHARLES H. STANLEY
AUTOMOBILE ACCIDENT

On the evening of April 16, 1964, while on Annual Leave, the rear end of my personally owned automobile was struck by another automobile on U. S. Highway Number 1 near Fredericksburg, Virginia. The accident occurred as a result of a car driven by a Marine attached to Camp LeJeune, North Carolina, being unable to stop his car to avoid hitting a truck, swerved into the lane in which I was traveling and struck my car on the right rear with the left front of his automobile.

According to the Marine, who was traveling on the inside lane of a four-lane highway, the driver of a truck traveling immediately in front of the Marine's car, suddenly indicated by his signals that he was stopping or turning left. In order to miss the truck, the Marine swerved sharply into the outside lane and apparently was either going too fast to stop his car or his brakes did not work.

There were no apparent injuries in either car. The extent of the damage to my personally owned automobile is unknown but will probably run more than $100. The damage to the Marine's car is much more extensive. The accident was investigated by Virginia State Patrolman [redacted] who indicated he was taking the Marine to a Justice of the Peace where he would be charged with failing to have his car under control. It was indicated the Marine was undoubtedly traveling too close to the truck. My car was traveling at a moderate rate of speed, below the speed limit. The speed of the other is unknown, however, he indicated he was traveling about 55 miles per hour. The police officer indicated he felt this was very much under the actual speed of the car.

RADIOGRAPHIC REPORT

IVP: Intravenous urogram. The examination consisted of two projections. The first projection is a plain film of the abdomen. This reveals an arthritic spur projecting from the lateral inferior margin of L3 on the left. No other abnormalities are evident. A 10 minute projection, following the intravenous projection of contrast material demonstrates normal appearing collecting systems bilaterally and normal appearing ureters without evidence of obstruction. Some contrast material is in the bladder, and what is visible with xxpx respect to the bladder is considered unremarkable.

Dear Mr. Gale:

The agents assigned to the Special Investigative Division who worked on the investigation leading to the apprehension of Top Ten Fugitive Walter Lee Parman, the subject of an Unlawful Flight to Avoid Prosecution-Murder case, did superior work and I am taking this occasion to commend them, through you.

The success achieved in the arrest without incident of this badly wanted fugitive can be attributed in no small measure to the unusually thorough and resourceful manner in which these men discharged their particular responsibilities. Their services were indeed noteworthy and I want you to convey my sincere appreciation to all for their valuable contributions.

Sincerely yours,

INSPECTION - SPECIAL INVESTIGATIVE DIVISION
INSPECTOR H. LYNN EDWARDS; SEPT. 10 - OCT. 6, 1964

SYNOPSIS

Officials: Assistant Director Courtney A. Evans, in charge since Division created 2/10/61; Inspector Charles H. Stanley, No 1 Man since 2/17/61. Last inspection: 10/28 - 11/13/63.

Physical Condition and Maintenance - Very Good (Last inspection - very good). Space mostly on first floor with remainder on seventh floor, Justice Building; space satisfactory but presents potential for improved efficiency and economy when move to new building will permit completely contiguous arrangement. Inspector ordered switch of space between 2 units to complete contiguity of one unit; also ordered 2 first-floor mail rooms consolidated to provide more space plus anticipated savings of 1 messenger in Files and Communications Division. Minor housekeeping delinquencies detected ordered corrected. Division to closely follow completion of scheduled painting. No security delinquencies noted.

Specific Division Operations - Very Good (last inspection - very good). Pending matters supervised 40,846 active on 9/30/64 up 3,032 from 37,814 active 9/30/63. Field delinquency in cases supervised low (2.7%, down from 4.6% year ago) but Division instructed to reduce criminal intelligence investigative delinquency, averaging above 7%. Fugitives apprehended up 7.8% this fiscal year. Although Criminal Informant Program showing substantial statistical accomplishments and numerical increases, Inspector feels program could be intensified in quality emphasis, wasteful turnover of potential criminal informants (PCIs) cut down, and entire program strengthened without additional Seat of Government (SOG) supervisory personnel by increasing SOG supervisory control over (1) PCI development, including imposition of reasonable prerequisites for PCI qualification; (2) agent participation in PCI and CI development; also by (3) greater frequency of agent contact with PCIs and CIs in lieu of current 45-day minimum, (4) explore possibilities and feasibility of greater use of Automatic Data Processing tools in supervising programs, and (5) holding regional conferences to emphasize program - above suggestions would not require additional manpower. Division agreed to attempt these suggested improvements on trial basis. Inspector emphasized Criminal Informant Program of maximum importance now especially in light of current loss of some MISUR coverage and recent de-emphasis of other confidential techniques.

Criminal Intelligence Program (CIP) shows continuing progress: 1,300 of estimated 5,000 total La Cosa Nostra members identified; additional details re aims and purposes of organization obtained; valuable selective local dissemination has achieved desirable harrassment and deterrent action against organized crime and related police and political tie-ins. Loss of certain MISUR coverage in Las Vegas and Miami has impaired our

penetration of "skimming operations" in gambling and intensifies need for better live coverage. In September, 1964, CIP had 125 Top Echelon Informants, up 49 since last inspection (8 members of La Cosa Nostra). MISURS in operation total 61 (81 installed and 37 discontinued since last inspection). Division still pursuing objective of prosecuting La Cosa Nostra under illegal conspiracy concept but urged to intensify efforts to discover new concepts and needed new legislation. Inspector also urged continuing efforts with Crime Records Division aid for well-conceived public relations program to build public understanding and effective public opinion against La Cosa Nostra.

Administrative Operations - Good (last inspection - Very good). Organization of Division into 3 sections, each subdivided into numerous specialized units, is logical and currently justified. Inspector suggested and Division agreed to streamlining and related measures to improve efficiency and in some instances eliminate administrative weaknesses. Examples: (1) revisions to improve applicant lead card (Form 9-12); (2) re supervisors in charge of applicant units to hereafter spot check and initial outgoing summaries and correspondence; (3) scoring field errors where field violates Manual requirement by omitting "Registered Mail" flag in Security of Government Employee reports; (4) obtain prior approval for sizeable projects handled in Criminal Intelligence Research Unit, also to follow progress closely through adequate monthly reports; (5) strengthen security of criminal intelligence information by adapting established "June" procedures to reports and abstracts and caution field to more carefully prepare such abstracts; (6) adopt photo album to assist correlation of key gambling figures similar to system successfully used in Top Echelon Criminal Program; (7) adopt form cover airtel in lieu of individual typing to handle volume requests from field for investigations by Legal Attache, Ottawa; (8) to help eliminate time-consuming clerical functions contributing to noticeably low stenographic and typist production, Division will institute 60-day trail of having forms to order Departmental applicant clerical investigations prepared in final form by experienced GS-4 unit clerks rather than current procedure whereby GS-4 clerk now rough drafts form, thereafter sends to reviewer-analyst for review, thence to typing pool after which typist proofreads, stenographic unit supervisor spot checks and GS-4 unit clerk and reviewer-analyst again review and approve. If trial successful Division should be able to release some typist personnel. Inspector instructed front office manual for odd-duty supervisory guidance be updated to accurately reflect policy re dissemination to Secret Service and suggested other improvements. Fugitive Section failing to insure field compliance with requirement for submitting 6-month letters in deserter cases. Inspector determined 6-month letters in these cases serving no useful purpose and instructed Division initiate action to eliminate requirement. No sick leave abuses detected. No substantive errors detected and form errors comparable to last inspection - low. Defense Plans satisfactory. Division contributing substantially to Bureau's publications. Errors in correspondence (6 in 15 months period) being held to minimum.

Personnel Matters - Very Good (last inspection - very good). Division personnel alert, enthusiastic, busy; morale high. Overtime equitably shared. No agents on limited duty or overweight. Incentive awards and commendation programs well handled. Division must intensify training of stenos and typists to help raise production. Work-related injuries down from last inspection, but continued emphasis on accident prevention needed. Total personnel 175 (57 agents, 118 clerks), no increase since last inspection. Personnel adequate but Division instructed to watch several marginal work load situations and initiate consolidation to reduce personnel needs if anticipated work load increase does not occur. Inspection Division will follow.

Memorandum to Mr. Tolson
Re: Inspection - Special Investigative Division

Contacts - Excellent (last inspection - excellent). Assistant Director no longer responsible for White House contacts but continues other contacts in excellent fashion. Speeches up over last inspection. Division No. 1 Man and many key agent supervisor share commendably in essential contacts and liaison. Federal legislation pertinent to Division work well coordinated and closely followed.

RECOMMENDATIONS:

1. Assistant Director Courtney A. Evans, GS-18 @ $24,500, nonveteran, not on probation, in charge of Division since established 2/10/61. Appearance and personality excellent. Inspection findings indicate Division functioning satisfactorily under his leadership. Relieving him of White House contact responsibilities should permit more personal attention to extremely important Criminal Intelligence Program to increase substantial gains already made; also should enable him to give needed intensification and strengthening to Criminal Informant Program. Recommend attached letter be sent summarizing inspection findings.

2. Inspector Charles H. Stanley, No. 1 Man since 2/17/61, GS-17 @ $22,945, nonveteran, not on probation. Is ideally suited by appearance, personality, knowledge, experience, ability and temperament for No. 1 Man position. Effective teamworker. Attached letter to Evans will also inform Stanley of inspection findings.

3. Recommendations concerning other personnel handled separately.

DETAILS

PHYSICAL CONDITION AND MAINTENANCE . . . . . VERY GOOD

Most of Division occupies space on first floor but has 3 units of 1 section on Seventh Floor of Justice Building. Improved efficiency and certain economies should be achieved when Bureau's move to new building effected. Inspector ordered exchange of space between Departmental Applicant Unit and Special Inquiry Unit to provide contiguous space for latter unit. Although division space adequate for present, expected increases in special applicant investigations following Presidential election will create temporary congestion in accommodating anticipated personnel on loan. To improve efficiency and ease space, Inspector ordered 2 first-floor mail rooms consolidated into Room 1262 where existing Xerox equipment located. Savings to Files and Communications Division of 1 messenger to service 1 instead of 2 mail rooms indicated. First floor space on public corridors necessitates continuous security consciousness on part of personnel to which Division alert. No security delinquencies noted.

Space well maintained. Minor housekeeping delinquencies detected, corrected on spot or ordered corrected, included detection of electrical cords on floor creating potential safety factors; available signal lights absent from several telephone instruments with multiple extensions creating confusion and minor personnel irritation; overloaded circuit controlling overhead lights in 3 rooms on Seventh Floor which blew fuse twice during inspection - ordered corrected. Painting of several rooms completed during inspection, others on request schedule. Ordered to follow.

SPECIFIC DIVISION OPERATIONS . . . . . VERY GOOD

As of 9-30-64 Division supervised 41,782 pending matters (40,846 active) compared with 38,575 (37,814 active) as of 9-30-63, an increase of 3,032 active matters. (Source of figures: Report prepared by Administrative Division captioned "FBI Administrative Report Summary," compiled from Field Administrative Reports.) Greatest increase creditable to Selective Service, occasioned by lowering registration age requirements. Applicant cases notably lower during current inspection but believed attributable to agencies' deferred appropriations and pre-election curtailment of agency appointments. Decreases also noted in Interstate Transportation of Wagering Information and Interstate Aid of Racketeering categories, both due to eliminating initial influx of exploratory cases and concentration on best prosecutive potential. Field delinquency in these classifications 9-30-64 averaged 2.7% as compared with 4.6% 9-30-63. Division instructed to reduce criminal intelligence investigations delinquency (generally running in excess of 7%) to absolute minimum.

Fugitive apprehensions increased from 11,887 fiscal year 1963 to 12,810 (7.8%) in fiscal year 1964; first 2 months fiscal 1965, 7.8% (2,948 to 3,179) over comparable fiscal year 1964 period. Cases involving armed and dangerous fugitives increasing. Close supervision afforded Ten Most Wanted Fugitives Program, 18 apprehended since last inspection; 16 in fiscal year 1964, 6 more than the previous year. Identification Orders and Wanted Flyers issued when necessary.

Although Criminal Informant Program shows substantial statistical accomplishments and numerical increases in both criminal informants (CIs) and potential criminal informants (PCIs), Inspector feels quality could be intensified, wasteful turnover cut down, and entire program strengthened without increasing present supervisory personnel if Division devised ways to increase Seat of Government (SOG) supervisory control over such matters as (1) PCI development, including imposition of reasonable prerequisites for PCI qualification; (2) agent participation in PCI and CI development; (3) greater frequency of agent contact with PCIs and CIs in lieu of current 45-day minimum; also (4) explore possibilities and feasibility of greater use of Automatic Data Processing tools in supervising programs, and (5) regional conferences to emphasize program. Division agreed to initiate pilot actions to test Inspector's suggestions with view to field-wide adoption where justified. Inspector emphasized that Criminal Informant Program is more important than ever before, especially in light of current loss of some MISUR coverage and de-emphasis of other confidential investigative techniques. Inspector instructed Division to make certain pilot programs constitute sufficient sampling and that Inspection Division be given opportunity to analyze their results and concur in final recommendations.

Criminal Intelligence Program shows continuing progress. Primary attention properly focused on La Cosa Nostra. Additional members identified (total 1,300 out of estimated 5,000); more details regarding aims and purposes of the organization obtained. Gangland murder information developed and disseminated. Although prosecutions remain the ultimate objective, desirable harrassment and deterrent action taken by Bureau against organized crime and related police and political tie-ins through dissemination to trusted local authorities in Chicago, Youngstown and Jacksonville areas. Knowledge of "skimming operations" in gambling has increased but loss of certain MISUR coverage in Las Vegas and Miami has greatly decelerated our progress and intensified need for better live coverage. Interrelationship between United States and European-Italian underworld established. Pressure by use of grand juries effective in instituting prosecutions of some "Commission" members in New York and Philadelphia. As of September, 1964, Program had 125 Top Echelon informants (8 are members of La Cosa Nostra) up 49 since last inspection, of whom 28 regularly paid; Los Angeles and Milwaukee have developed member informants whereas none existed at last inspection. MISUR coverage totals 61 now in operation, activity reflected by 81 installed and 87 discontinued since last inspection. Program closely followed.

Best prosecutive potential for La Cosa Nostra still lies in conspiracy theory in view of organization's composition as "invisible government" operating extralegally in defiance of law and order. Division urged to intensify all possible efforts to discover additional prosecutive concepts, including needed new legislation and strengthening amendments to existing laws. Inspector also feels possibility should be explored of coordinating legislative effort with well-conceived public relations program through Crime Records Division, including articles in legal as well as popular periodicals designed to build public understanding and concept of "Public Enemy No. 1" criminal conspiracy. Division should also collaborate with Crime Records Division re desirability of recommending Director consider writing book as foremost authority in this field.

existing and intensified

Fiscal year 1964 antigambling and antiracketeering convictions increased over 1963. Approximately 250 additional subjects awaiting trial or grand jury action which promises substantial increases in 1965. Division urged to continue efforts to get more cases for prosecution. New sports bribery legislation should be exploited.

9216 applicant-type investigations conducted August, 1963 - July, 1964, many involving highly placed individuals. President has expressed to Director appreciation for efficient handling. Also, importance of this work was recently highlighted by White House Directive ordering agencies to intensify thoroughness in screening applicants.

In January, 1964, inspection of San Juan Office, Inspector noted large number Selective Service cases where registrant declared unfit for military due to illiteracy after registrant located through FBI investigation, sometimes extensive. Division requested by Inspector to discuss situation at Selective Service Headquarters with view toward revising procedures to eliminate wasted effort by FBI. Contact accomplished and Inspection Division's recommendations found to be in line with concurrent study by President's Manpower Commission resulting in required examination of registrants shortly after eighteenth birthday. Program implemented July, 1964. Increases felt in case load to date from inclusions greater number of registrants in revised procedure will in future decrease the work to FBI advantage and savings by eliminating at time of registration high number of illiterates previously referred to us.

ADMINISTRATIVE OPERATIONS . . . . . GOOD

Division organized into 3 logical sections. In Front Office, Inspector instructed division manual for guidance of odd-duty supervisors be updated to accurately reflect policy re dissemination to Secret Service; other improvements in manual suggested.

Memorandum to Mr. Tolson
Re: Inspection - Special Investigative Division

Employees Security and Special Inquiry Section has 9 units handling specialized phases of applicant and loyalty work. Administration of section geared to handle volume deadline matters with maximum attention paid to accuracy. Organizational breakdown of Section justified now, but Inspector cautioned Division to watch future work loads in certain marginal units and initiate consolidations where manpower economies might be warranted.

In Security Form Processing Unit, Inspector made survey to determine whether IBM card index on full-field investigations and preliminary inquiries justified - conclusion reached that present use warrants retention but Division instructed to follow usefulness closely and abolish when possible.

Inspector also inquired into retention of approximately 5,000 summaries in Special Inquiry Unit, some dating back to 1952. Justified to service urgent requests from Bureau officials but Division instructed to maintain "use" log to permit future evaluation, also to purge obsolete summaries from prior Presidential administrations.

Inspector suggested, and Division agreed, several revisions to improve applicant lead card (Form 9-12) used in Special Inquiry Section.

Supervisors in charge of applicant units had not been reviewing and initialing outgoing summaries and correspondence; Inspector instructed they begin to spot check such for uniformity, content and accuracy.

During file reviews Inspector detected undesirable tendency of Supervisors in failing to call field attention to instances where agents submitting Security of Government Employee reports omitted to flag mail "Registered Mail" which contained information requiring such. Division instructed to immediately institute error form procedures to correct.

Five-day production survey of stenographers and typists revealed these employees performing certain clerical functions possibly impairing production. Inspector's inquiry indicated Departmental Applicant Unit (clerical) utilizing forms to order investigations which were first long-hand rough drafted by a clerk, GS-4, thereafter sent to clerical reviewer-analyst for review before routing to pool for typing. Typist prepared and proofread typed form which was then spot checked by stenographic unit supervisor and routed back to GS-4 clerk to review before again sending to reviewer-analyst. Preparation of forms in final form by GS-4 clerks appears more efficient and would eliminate routing and initial proofreading by analyst plus subsequent supervisory stenographer and typist time; ultimately should result in fewer typist personnel. 60-day trial ordered. Division should submit recommendations regarding practicality of adopting system on permanent basis through Inspection Division for its analysis and concurrence.

Criminal Intelligence and Organized Crime Section has 6 units all performing functions related to over-all program. Division ordered to submit 90-day justification re possible consolidation of units handling Interstate Gambling and Criminal Influence in Labor Organizations, this effecting release of 1 agent. All agent personnel assigned have excellent experience qualifications which are closely oriented to objectives of section.

Criminal Intelligence Research Unit correlates and disseminates material relating to criminal activities and intelligence of interest to Bureau officials, the Department, and others. Since much of this work is of project nature, Inspector instructed Division to institute practice of obtaining prior approval for projects of any magnitude by submission of suitable justification memoranda; also to follow progress of such work closely through adequate monthly reports.

During inspection inquiry was made into the security provided criminal intelligence information based on Inspector's conclusion there should be substantial uniformity in handling both criminal and security intelligence information. By separate memorandum, Inspector recommended, and affected Divisions agreed, procedures to accomplish desired uniformity and tighten security in both files and abstracts.

Section has initiated program to concentrate attention on key gambling figures in designated offices. Division adopted Inspector's suggestion to implement use of separate photograph album to assist in correlation of program in manner similar to what Division already does in Top Criminal Echelon Program.

In several classifications Division has dual interest, particularly with General Investigative Division, in certain investigations. Survey conducted during inspection to determine whether guidelines for fixing supervisory responsibility and direction of substantive matters sufficiently firm to preclude creating a "no man's land" type of dual supervision which, in recent example in another Division, resulted in inadequate supervision. Both divisions assured Inspector their present inter-divisional practices were sound.

Fugitive Section of Division has 4 units which are geared from an administrative standpoint to handle a large volume of matters including all fugitives, Selective Service violators, and criminal informants. Inspector detected several instances where field not submitting 6-month letters in certain deserter cases although existing requirements make no exceptions. Although this letter was primarily designed to insure field considered fugitive cases for possible issuance of Identification Order (I.O.), Division was actually using this 6-month letter as administrative devise to insure the case would be reviewed in the field at the end of 6 months; I.O.s

are rarely justified in deserter cases. Actually, it was determined by reviewing the cases in which no 6-month letter had been submitted, that reports had been submitted in each case revealing that these cases were actually receiving necessary investigative attention. Division should have taken initiative to eliminate 6-month letter in deserter cases, which Inspector instructed be done.

Inspector also streamlined handling correspondence by having Division adopt suggestion to handle volume requests from field to conduct investigations of liaison nature for Legal Attache, Ottawa, by form cover airtel in lieu of individual typing of same.

Case files reviewed during inspection revealed 8 errors of form in 468 files (1.71%) including incorrect number of copies of reports, misspelling in title, incorrect date and investigative period, and "Fugitive" omitted from title. Instructed to keep to minimum.

Production of stenographers and typists lower than SOG averages: Stenographers employed over 90 days 2.07 pages per hour, SOG average 2.79; stenographers employed under 90 days 1.99, SOG average 2.16; typists employed over 90 days 2.60 pages per hour, SOG average 3.28; typists employed under 90 days 1.77, SOG average 2.75. Combined stenographic and typist average 2.07 pages per hour, SOG 2.88. In both instances those employed over 90 days and those employed under 90 days are under the SOG averages. Retyped pages in Division low (stenographers 2.6% compared with SOG average of 8.34%; typist 1.3% compared with SOG average of 5.18%). Estimated approximately 70% of stenographic and typing time deals with employee security and special inquiry matters, 23% with fugitive matters, and about 6% with criminal intelligence and organized crime matters. This may detract from accuracy of production survey as substantial percentage deals with applicant-type matters involving forms filled in by reviewing Personnel Security Questionnaire (PSQ), a clerical function. Ordered to pay careful attention to exclude pure, clerical functions next production survey conducted 3 times a year and thereafter.

No abuses of sick leave detected and all instances where sick leave taken in excess of that earned justified. Division otherwise alert to necessary economy and essential streamlining procedures. Inquiries from outside sources being handled satisfactorily. Defense Plans reviewed - satisfactory. Division contributes substantially to FBI Notes, Human Interest Items, Interesting Case Memoranda, and the FBI Law Enforcement Bulletin. Errors in correspondence (6 in 15-month period) being held to minimum.

PERSONNEL MATTERS . . . . . VERY GOOD

Personnel appeared alert, capable, enthusiastic and busy on essential work. Morale high.

Training programs for agent personnel effective; however, training of stenographers and typists needs intensification to help correct low production. Division exhibiting proper alertness to security of information in New Agent and National Academy lectures. Conferences and lectures monitored were thorough, characterized by good variety of material, excellent participation and exchange of ideas. Specialized In-Service classes being emphasized. Overtime adequate, productive and equitably shared (June - August, 1964, average 2'23"). Division active in FBI Recreation Association programs. Contributions to "The Investigator" and other Bureau publications excellent in quality and quantity. No deficiencies noted in operation of Division Fund. Incentive Awards and Commendation Programs well handled. Promotional Availability List, exit interviews, rest periods, and availability of agents satisfactory. All agents current on annual physical examinations; none on limited duty or overweight. Four work-related injuries since last inspection; improvement from 5 during previous period; however, continued emphasis on accident prevention necessary.

Total personnel 175 (57 agents, 118 clerical), last inspection 165 (57 agents, 108 clerical). Increase of 10 clerical employees accounted for by fact that vacancies existing at time of last inspection filled (7 in stenographic pool, 1 mail clerk, and 2 in Employees Security and Special Inquiry Section (ESSIS)). One agent added to Fugitive Section due to increased volume and 1 agent not replaced in Criminal Intelligence Section when 1 transferred out, keeping number Agents constant at 57.

Volume of work summer months 1964 generally lower in ESSIS than in previous inspection due mainly to delay in appropriations of agencies usually requesting volume of work and "lull" before Presidential election. Decrease as of 7-31-64 was 15.8% as compared with same date 1963; however, substantial increases noted in August and September, 1964 - justifying present personnel with further higher volume anticipated. At time of inspection case load Atomic Energy Applicant and Case Review - Civil Service Commission Units considered marginal. Division instructed to follow closely and consider these units as sources of assistance to other units before requesting outside personnel for help in peak periods. Based on work load survey of Security Form Processing Unit covering 2-year period, Inspector confirmed seasonal nature and established work load level of 1,882 closed and 89 pending matters as fair staffing guide. Work load in this unit as of 9-30-64 justified continuance of existing 4 agent supervisors but Division instructed to maintain an administrative tickler to insure work of Unit thoroughly evaluated on monthly basis,

recommending necessary adjustments, and that results of analyses be furnished Inspection Division for reference in future Division personnel adequacy checks. Work load of Agency Requests, International Organizations and Miscellaneous Complaints Unit which was established in November, 1962, with 3 agent supervisors and now operates with 2, has decreased almost 4% from August, 1963, to August, 1964. Division instructed to watch situation closely so that appropriate consolidation of units could be effected if further work load reduction detected.

Analysis of pending work in Interstate Gambling Activities and Criminal Influence in Labor Organizations Units of Criminal Intelligence and Organized Crime Section covering 2-year period suggested consolidation of those units under one Unit Supervisor and release of 1 agent to other work. Based on Division's argument that most of current cases are more complex and Bureau at critical point in gambling investigations, directing them against key targets, Inspector instructed Division closely follow situation and re-evaluate in 90 days, submitting thorough analysis and recommendations through Inspection Division.

Present personnel Fugitive Section adequate.

CONTACTS . . . . . EXCELLENT

Assistant Director Evans continues to maintain excellent contacts with Department, members of Congress on limited basis, and other Government officials, but no longer has responsibility for high-level White House contacts. Division No. 1 Man and various agent supervisors maintain close liaison with appropriate Government personnel arising from work supervised. Extent of individual participation in contact and liaison work throughout Division noticeably good. Federal legislation of primary interest to this Division well coordinated and closely followed. Amendment to Interstate Transmission of Wagering Information Statute proposed to Department for presentation to next session of Congress convening in Jaunary, 1965. Department also urged to sponsor legislation compelling testimony in racketeering cases and for inclusion of arson in antiracketeering statute. Total speeches by Assistant Director increased over last inspection and field contact work with U. S. Attorneys and Federal Judiciary continued.

INSPECTION - SPECIAL INVESTIGATIVE DIVISION
INSPECTOR H. L. EDWARDS; SEPT. 20 - OCT. 14, 1965

SUMMARY

Officials: Assistant Director James H. Gale, since 12-15-64 replacing Courtney A. Evans who retired 12-30-64; Inspector Charles H. Stanley, No. 1 Man since 2-17-61. Last Inspection: 9/10 - 10/6/64.

Physical Condition and Maintenance - Very Good (Last Inspection - Very Good). Division continues to occupy space on 1st and 7th floors, Justice Building. Security and maintenance satisfactory except for minor housekeeping delinquencies corrected or ordered corrected, and needed painting already scheduled and Division following. Realignment for contiguity of unit and consolidation of 2 first-floor mail rooms ordered last inspection have improved efficiency and economy. Agents' credentials and other property satisfactory.

Specific Division Operations - Very Good (Last Inspection - Very Good). On 9-30-65 Division supervised 40,689 matters - down 1,102 from 9-30-64; decrease mostly Selective Service cases but sharp rise now evident due to expanding draft calls. Field delinquency in all classifications supervised 4.6% on 9-30-65, up slightly from last inspection; 3 classifications exceeded 7% (Antiracketeering, Interstate Transportation in Aid of Racketeering, and Selective Service); reducing delinquency stressed by Inspector.

Fugitives apprehended - 13,491 fiscal year 1965, up 5.3% over 1964. Increase 9.3% first 2 months this fiscal year. "Ten Most Wanted" Program claims 2 more apprehensions fiscal year 1965 over 1964. Prior year's figures not available for comparison, but Inspector noted about 19.5% general fugitive and deserter cases over 6 months and 9.6% over 1 year old. Intensified attention ordered to effectuate earlier solutions. Division exercising judicious use of Identification Orders, Wanted Flyers and Check Circulars.

Extensive strengthening made last inspection in Criminal Informant Program has increased efficiency and accomplishments. Examples: criminal informants up 24.8% from 3,339 to 4,169; average cost per informant down from $125.26 to $103.71; apprehensions credited to informants up 52.8% from 2,671 to 4,080, and recovered property $9,243,336 - up $2,131,348. Inspector stressed constant review and evaluation of program for more improvements, including better geographical coverage.

Since last inspection Division compiled many achievements in penetrating and disrupting hoodlum operations in local, national, and several foreign areas; these demonstrate excellent resourcefulness, dissemination, and cooperation. However,

primary aim remains to make Bureau prosecutive cases and Division must continue to keep pressure on all field offices where such potential exists.

Criminal Intelligence Program continues focus on La Cosa Nostra (LCN). Total membership still estimated at 5,000, but total identified down to about 1,100 from 1,300 at last inspection, largely due to Division's tighter standards. Inspector stressed intensification in geographical areas where 10% or less of LCN concentration identified. Federal grand juries and immunity statutes, despite limited scope, have proved excellent weapon against organized crime. Division urged to be ready for extensive use of this tool if Supreme Court sustains use in pending appeals, also to detect hoodlum efforts to circumvent or insulate against immunity, and to follow pending legislation to broaden scope of immunity laws. Curtailment of microphone surveillances has seriously hampered fight against organized crime. Current "climate" and Long Committee hearings give little hope for early return to such techniques but Inspector stressed closely watching situation so Director and Attorney General can reconsider resuming techniques when feasible; in meantime, Division must do all possible to develop live informants and other sources. Top Echelon Criminal Informant Program improving (155 on 10-5-65, up from 125 last inspection; 10 are LCN members, up from 8 last inspection). Division urged to intensify program designed to disrupt LCN. Gambling convictions up fiscal year 1965 to 90 from 56 prior year.

; now being explored in Department and Division instructed to pursue vigorously. During U. S. Attorneys' Conference 10-11-65, Division representative detected desire by some U. S. Attorneys to meddle in Bureau investigations of organized crimes. Bureau's interests defended and appropriate SACs alerted.

b7D
b7E

Volume of special applicant and Security of Government Employees investigations still high (10,054 current year, up from 9,103 preceding year). Volume of White House and other summaries heavy; Division commended for quality and promptness. Sharp increase in Selective Service and Deserter cases due to Viet-Nam and similar crises, including draft card burnings and antidraft demonstrations. Inspector stressed close supervision of recent legislation re destruction or mutilation of draft cards; and alertness to need for additional laws. Form errors detected from file reviews 2.4%, up from last inspection (1.7%). Accuracy stressed. No substantive errors in files reviewed.

Administrative Operations - Very Good (Last Inspection - Good). Division functional organization logical, efficient. Mail deadlines observed, no delinquencies. Special Inquiry Unit retaining copies of summaries - justified by expedite requests but Inspector ordered purging of known dead and periodic re-evaluation of retention policy. Criminal Intelligence and Organized Crime Section instructed to update distribution system and start numbering issues of "Nationwide Criminal Activities" and "Criminal Intelligence Digest" publications. Division commendably raised stenographic and typing production and accuracy averages but production of newer stenographers needs added attention. Time and attendance clerk retaining sick leave requests already posted - destruction ordered. No sick leave abuses. Only 29 suggestions submitted fiscal year 1965 (down from 39 fiscal 1964) but 19 adopted, significant gain over 10 in 1964. Inspector emphasized participation by all personnel. Economy program actively supported through

 (CONTINUED - OVER)

personnel reductions and streamlining. Correspondence errors down. Defense plans satisfactory. Division alert to referring public relations items to Crime Records Division.

Personnel Matters - Excellent (Last Inspection - Very Good). Personnel down from 175 last inspection (57 agents, 118 clerks) to 152 (57 agents, 105 clerks) adequate for foreseeable work loads. Reduction represents 10 in stenographic unit, 1 GS-6 clerk-stenographer reassigned from Front Office without replacement to Section vacancy, 1 reviewer-analyst eliminated by consolidation and streamlining in Criminal Intelligence and Organized Crime Section, and 1 clerk in Atomic Energy Unit due to decreased work load. Division agreed to hold agent staff to 57, or 4 below budget quota of 61. Personnel productively occupied. Morale high. Training effective but 1 agent delinquent in firearms - due to priority work specials; early correction ordered. Division alert to and helpful in Bureau training program lectures, conferences effective. Division suspended additional regional field conferences in organized crime due to economy but in view of effectiveness and necessity for intensifying informant development and prosecution potential, Inspector ordered periodic re-evaluation. No agents delinquent on physical examinations, none overweight or on limited duty. Clerical Promotional Availability List adequate. 5 work-related injuries since prior inspection - up 1, safety stressed. Division alert to employee recognition via commendation, Incentive Awards, and quality increases. Recreational program and Investigator submissions above average.

Contacts - Excellent (Last Inspection - Excellent). Although Assistant Director has less responsibility than predecessor for special liaison and public speeches, inspection findings indicate that Assistant Director Gale has brought about a much firmer attitude in dealings with the Department in daily contacts regarding matters supervised and in such special dealings as the recent U. S. Attorneys Conference. Division Head and other key supervisors have much responsibility for frequent contacts with other agencies and officials incidental to matters supervised; inspection reflects this work handled in manner favorable to Bureau. No liaison problems but Peace Corps refusal to furnish confidential file information in Security of Government Employees investigations currently being followed through Domestic Intelligence liaison with Sargent Shriver. Special Investigative Division instructed to follow closely. Division alert to legislative needs.

RECOMMENDATIONS: 1. Assistant Director James H. Gale, GS-18 @ $24,500, not on probation, veteran, in charge of Division since 12-15-64. Has outstanding appearance, an aggressive, positive personality. His extensive field experience coupled with an excellent command of policy and procedures fit him admirably for the challenges of fighting organized crime. He has a positive and progressive approach to the work and inspires respect and confidence of associates. Inspection findings fully justify continuing present assignment. Attached for approval is letter to Mr. Gale summarizing findings.

He makes impressive businesslike appearance, has energetic, vigorous manner, is loyal, dedicated and has thorough knowledge of policy and procedures. Highly qualified to continue in present capacity. During the past rating period, Mr. Stanley has continued to function as Number One Man in this Division and he has handled this position in an outstanding manner. Mr. Stanley has an exceptionally keen analytical mind which, when coupled with his outstanding knowledge of Bureau policy and procedures, makes him an invaluable employee of the Bureau. He is most expert in the sensitive field of White House inquiries and government employee security-type cases. During the rating period he has participated in the supervision of a large volume of these sensitive cases and handled his duties in this regard in an extremely competent fashion.

In the absence of the Assistant Director, he has directed the work of the Special Investigative Division in a flawless manner.

He makes an outstanding personal appearance and has a very engaging personality which enables him to get along well with contacts in the Government as well as business fields.

Mr. Stanley is able to handle the most complicated assignments in a highly efficacious manner. He has demonstrated he has the ability to handle raids and dangerous assignments in a completely effective fashion.

Mr. Stanley is possessed of a great deal of initiative and readily assumes responsibility and takes appropriate action without supervision. He is at all times alert to insure that the Bureau's best interests are protected.

Mr. Stanley is a highly dedicated and conscientious employee who has unswerving loyalty to the Director and the Bureau. Mr. Stanley's performance during the past year has totally demonstrated that he is outstanding in all phases of his present assignment.

Dear Mr. Hoover:

Thank you very much for your kind letter of June 24, 1966, on my Thirty-First Anniversary in the Bureau.

My years in the FBI have been happy ones, and I do look ahead with enthusiasm and complete faith in the Bureau's continued leadership in the law enforcement and security fields under your expert and dedicated guidance.

The efforts to smear on the part of certain intellectually dishonest and self-motivated persons will fail as they have in the past since the truth will prevail.

Respectfully,

INSPECTION - SPECIAL INVESTIGATIVE DIVISION
INSPECTOR H. LYNN EDWARDS
OCTOBER 31 - NOVEMBER 18, 1966

SUMMARY

Officials: Assistant Director James H. Gale since 12-15-64. Inspector Charles H. Stanley, No. 1 Man since 2-17-61. Last Inspection: 9/20 - 10/14/65.

Physical Condition and Maintenance - Very Good (Last Inspection - Very Good). Division continues to occupy space on first and seventh floors, Justice Building. Space secure, adequate and well maintained, except for minor housekeeping delinquencies ordered corrected. Division initiated action to strengthen security by changing 35 file cabinet locks to require a more restricted key. Reproduction of material tightly controlled. Lighting inadequate in Rooms 7632-7644. Long-standing request to improve lighting in Rooms 7632-44 shows promise of correction by General Services Administration this fiscal year. Eight agents and one clerk to obtain new photographs for credentials.

Specific Division Operations - Very Good (Last Inspection - Very Good). On 10-31-66 Division supervised 51,297 matters, up from 41,849 last inspection. Major increases: Selective Service and Deserter cases, due to escalation in Vietnam; and Interstate Transportation in Aid of Racketeering due to intensified criminal intelligence efforts and exploitation of existing criminal sanctions. Field delinquency in classifications supervised 2.9%, down from 4.6% last inspection; no classifications over 7%. Over-all statistical accomplishments in classifications supervised in fiscal 1966 up in convictions (+28.4%) but down in fines, savings and recoveries (-52.6%). Gambling convictions reached new high of 98. First 4 months current year up 33.2% in convictions and 138.9% in fines, savings and recoveries. Fugitives apprehended fiscal 1966 up 6.2% and up 8.5% first 4 months current year. Fugitive cases over 6 months and over 1 year old reduced since last inspection. "Ten Most Wanted" fugitives apprehended fiscal 1966 total 20, up 2 over previous year. Identification Orders, Wanted Flyers and Check Circulars selectively and effectively used.

Number of criminal informants (CIs) down slightly since last inspection but potential informants (PCIs) increased substantially. Division stressing conversion of PCIs to full informant status. Informant accomplishments up in fiscal 1966 but down

first 4 months current year, except for recoveries in Bureau cases. Division instructed to accelerate reversing trend.

Accomplishments in organized crime noteworthy since last inspection. Prosecutions pending up from 122 to 345. Inspector on Special Assignment New York reports intelligence-type investigations there now warrant major focus on prosecutions. La Cosa Nostra (LCN), prime target of Criminal Intelligence Program, has 1,240 of estimated 5,000 members identified (up from 1,100 last inspection). Complete loss of technical sources a severe setback but Division pressing vigorously for live informants. Top Echelon informants increased from 155 to 195, including increase from 10 to 16 in LCN member informants with 11 of 24 known LCN families penetrated. Inspector stressed identification of all families and members imperative. Use of immunity statute upheld by U. S. Supreme Court. b7D b7E

Special Applicant and Security of Government Employee investigations increased to 51,539 last year (up 41.5%); increase likely to continue; Bureau handling commended by White House and others. No substantive errors in files reviewed.

Administrative Operations - Very Good (Last Inspection - Very Good). Administrative organization of Division provides efficient, effective teamwork, permits essential flexibility of personnel. Creation of separate Deserter Unit since last inspection has promoted efficiency; Unit now experimenting with decentralization of active sections of "Zero" files as streamlining measure. On suggestion of Inspector, Selective Service Fugitive Index moved into Unit space to conserve time. Inspector detected imbalance in case load among supervisors in Interstate Gambling Activities Unit; Division instructed to withhold adjustments for 60 days in view of possible temporary nature. Mail flow smooth, deadlines met. Stenographic and typing production above Seat of Government averages, but typing production below unusually high Division average of last inspection due to less experienced typists. Retypes low, no delinquency past 6 months. No censurable correspondence errors past 6 months. Form errors detected from file reviews low. Total suggestions fiscal year 1966 (22) again declined from fiscal year 1965 (29) but current fiscal year trend favorable; Division instructed to insure all creditable suggestions tabulated.

Division has shown commendable attitude and noteworthy progress in adapting work to Automatic Data Processing, especially in La Cosa Nostra index, evaluation of Criminal Informant Program, and placing fugitives in National Crime Information Center; multiple demands on Division's reproduction equipment (Xerox and Thermofax) suggest need for smaller auxiliary machine; Division to compile justification data.

Memorandum to Mr. Tolson
Re: Inspection - Special Investigative Division; 10/31 - 11/18/66

Inspector suggested minor correction in maintenance of compensatory and sick leave records and Division Form Book to comply with Bureau standards. Division alert to economy but tremendous upsurge in workload has precluded any savings past two quarters under President's Cost Reduction and Management Improvement Program. Defense Plans current.

Personnel Matters - Excellent (Last Inspection - Excellent). Personnel complement 10-31-66, 178 (62 agents, 116 clerks) up 5 agents and 10 clerks (includes 2 agents and 2 clerks on temporary assignment) from last inspection, necessary due to increased workloads. Four agents delinquent in firearms due to "specials," early correction ordered. No physical examination delinquencies. No agents overweight, on probation, on limited duty or unavailable. Voluntary overtime necessary, productive, equitably shared. Morale high. Division participates effectively in Bureau training programs. No field conferences held since last inspection and none scheduled; current policy requires all conferences be held incidental to In-Service training. Division has sponsored Specialized In-Service Schools and plans additional ones. In view of widespread enthusiasm, demonstrated "grass-roots" benefits, and substantial economies of past field conferences, Division urged to keep alert to changed conditions warranting re-evaluation of current policy. Division submissions to "The Investigator" excellent. Work-related injuries down from last inspection. Division alert to employee recognition where warranted; letters of commendation to agents decreased from 35 fiscal 1965 to 23 fiscal 1966. Inspector suggested Division hereafter maintain sectional breakdown to spot check equitable attention to employee recognition.

Contacts - Excellent (Last Inspection - Excellent). 101 Division contacts, up from 50 last inspection. Liaison on matters supervised active and effective. Division instructed closely follow progress in Ninetieth Congress of additional immunity legislation needed to assist in fight against organized crime (legislation died in House Judiciary Committee when Eighty-ninth Congress adjourned). Division alert to furnish Crime Records Division current material for articles and speeches by Director.

RECOMMENDATIONS: 1. Assistant Director James H. Gale, EOD 11-29-39 as clerk, 6-21-43 as Agent, GS-18 @ $25,890, veteran, not on probation, in charge of Division since 12-15-64. Makes outstanding appearance, is aggressive, enthusiastic, dedicated. Has excellent command of policies and procedures as well as continuing problems encountered in fight against organized crime and other areas of responsibility. Is providing positive leadership and has respect and confidence of employees in his Division. Attached for approval is letter to Mr. Gale summarizing inspection findings.

(CONTINUED - OVER)

2. Inspector Charles H. Stanley, No. 1 Man, EOD 6-24-35 as clerk, 6-26-39 as Agent, GS-17 @ $25,800, nonveteran, not on probation, No. 1 Man of Division since 2-17-61. Makes substantial appearance, has vigorous personality, is loyal, conscientious and has thorough knowledge of policies and procedures affecting work of Division. Functions effectively as No. 1 Man. Attached letter to Assistant Director Gale will also advise Stanley of inspection findings.

3. Recommendations regarding other personnel handled separately.

SUBJECT: PRESIDENT'S MESSAGE ON CRIME TO CONGRESS

I want to extend my personal appreciation for the efforts of the personnel of the Criminal Intelligence and Organized Crime Section of the Special Investigative Division in handling, on a most expeditious basis, an analysis of the President's Message on Crime and for the preparation of appropriate communications to the White House and to the Attorney General, which succinctly set forth the results of this analysis.

The President's message was an extremely complex document which proposed remedies for the crime situation in this country and covered the whole field of crime and law enforcement's approach to crime. The efforts expended on the night of February 6, 1968, by the personnel of this division were made at great personal inconvenience, under conditions of extreme pressure, to meet a deadline of 9:00 a.m., February 7, 1968. This deadline was met and the Bureau's views concerning this extremely controversial subject were forcefully set forth. I am also aware that each of the persons for whose file a copy of this memorandum is designated had completed a full day's work at the time that the President's message was received in the Bureau at 6:30 p.m. on February 6, 1968. Nevertheless, all the personnel involved conducted their task with a great deal of efficiency, dedication and loyalty to the Bureau and this important Bureau responsibility was properly and promptly discharged. Please accept my appreciation for your efforts in this regard.

INSPECTION - SPECIAL INVESTIGATIVE DIVISION
INSPECTOR [redacted] b6 b7C
OCTOBER 16 - NOVEMBER 1, 1967

SUMMARY

Officials: Assistant Director James H. Gale since 12/15/64. Inspector Charles H. Stanley, Number One Man since 2/17/61. Last inspection: 10/31 - 11/18/66.

Physical Condition and Maintenance - Very Good (Last Inspection - Very Good). Division continues to occupy space on first and seventh floors of Justice Building. Space adequate, secure and well maintained. Positive action taken to alleviate inadequate lighting conditions in rooms 7632 - 7644, existing at time of last inspection.

Specific Division Operations - Excellent. (Last Inspection - Very Good). On 9/30/67 Division supervised 37,260 office of origin matters compared to 33,281 at last inspection (increase of 12%). Work in Employees Security and Special Inquiry Section increased almost 18%. Large increases in Selective Service and Deserter cases since last inspection expected to continue due to Vietnam situation. Field delinquency in classifications supervised 3.5% up from 2.9% last inspection. Delinquency in Selective Service cases slightly over 7% for five of six months reviewed - instructions issued to reduce. Convictions in classifications supervised for fiscal year 1967 increased 74.5% over fiscal year 1966. At end of first three months of fiscal year 1968 convictions rose 18.2% over similar period of fiscal year 1967. In fiscal year 1967 convictions in antigambling cases reached all-time high of 121; up 23.5% over previous fiscal year and up 18.8% at end of first quarter fiscal year 1968. 15,878 fugitives apprehended fiscal year 1967 for all-time high; up 11% over previous fiscal year, and up 10% at end of first quarter fiscal year 1968. Declines noted in receipt of unlawful flight cases and apprehensions. Instructions issued to emphasize liaison with local authorities. 15 "Ten Most Wanted" fugitives apprehended first nine months of calendar year 1967 compared to 13 apprehended same period previous year. Identification Orders, Wanted Flyers and Check Circulars effectively utilized on selective basis. In organized crime field, individuals awaiting prosecution increased from 345 last inspection to 437 and continued pressure being placed on Department to bring cases to trial at earliest possible date. Significant inroads against La Cosa Nostra (LCN) continue. 1,350 LCN members identified of estimated total of 2,700, up from

1,240 identified last inspection. Top-echelon informants increased from 195 last inspection to 223. Top-echelon targets under development increased from 543 to 582. LCN member informants now 28 compared to 16 last inspection. Sources in 13 of 24 known LCN "families" up from 11. Accomplishments by criminal informants for fiscal year 1967 exceeded fiscal year 1966 in all categories, and up in five of seven categories at end of first quarter fiscal 1968. Continued emphasis and close supervision of live informants stressed.

Administrative Operations - Very Good (Last Inspection - Very Good). Supervisory responsibilities well organized, equitably shared. Supervisors alert to delays and improper submission of information by the field. No unnecessary delays in handling mail or files noted. Mail flow smooth, deadlines met. Formation of Criminal Intelligence Special Projects and Research Unit since last inspection facilitates research and correlation of information on LCN and organized crime; also expedites handling Departmental requests for searches of Electronic Surveillance Indices. Stenographic production slightly below Seat of Government average due to lack of experience, but typing production substantially above. Retypes well below average, no stenographic delinquency during six-month period reviewed. Form errors detected in file reviews well below last inspection. Suggestions by employees fiscal year 1967 (29) increased over fiscal year 1966 (22). Division alert to use of automatic data processing (ADP) equipment and National Crime Information Center (NCIC) in operations. Defense plans current.

Personnel Matters - Excellent (Last Inspection - Excellent). Personnel complement 11/1/67, 184 (63 Agents, 121 clerks) up 4 Agents and 7 clerks (increase includes 2 Agent and 2 clerical temporary positions made permanent since last inspection). Current complement considered adequate but not excessive due to substantial increase in work load. In view of further anticipated increases particularly in the field of special inquiries for the White House, Assistant Director instructed to closely follow manpower requirements. No physical examinations delinquent. No Agents overweight or on probation. One Agent not available for general assignment - justified. Voluntary overtime necessary, productive and equitably shared. Morale appears high. Division utilizes Specialized In-Service Schools in training field personnel. Active FBIRA program being followed, participation excellent and 22 items published in "Investigator" including one feature article. Division alert to employee recognition where warranted.

Contacts - Excellent (Last Inspection - Excellent). Division contact program effective; provides diversified, quality coverage. Division closely follows legislative matters relevant to its work responsibilities. Division actively participates in furnishing Crime Records Division, other Bureau officials and the field with suitable speech material. Liaison on matters of interest active and effective.

RETIREMENT INFORMATION

Name: **Mr. Charles H. Stanley** Date: **3-28-68**

APPLICATION

☐ The "Application for Retirement" will be forwarded by the Bureau to the Civil Service Commission (CSC) for approval.

☒ The enclosed "Application for Retirement" should be executed (or changed as indicated below) and promptly returned to the Bureau for forwarding to the Civil Service Commission (CSC) for approval. The information sheet attached to the application is for your records and you should detach it before sending in the application.

DEPOSIT OR REDEPOSIT

Making either a deposit or redeposit is optional. Such amounts are paid directly by you to CSC; therefore, it is possible that you have already made the deposit or redeposit indicated below without the Bureau's knowledge, having dealt directly with CSC. If so, you may ignore this matter now. If not, after a review of the approximate annuity figures shown below, should you decide to make a deposit or redeposit, you should request Bureau to forward Standard Form 2803 to you. This form should be returned to the Bureau.

☐ Not applicable.

☒ The deposit you may owe is a payment to the retirement fund to cover a period of service during which no retirement deductions were withheld from salary. Credit is given for service not covered by deductions; however, if the deposit is not paid, your annuity will be reduced each year by 10% of the amount due as deposit. The amount you may owe is approximately $ **639**.

☐ The redeposit you may owe is a payment to the retirement fund to cover a period of service for which retirement deductions were withheld from your salary but later refunded to you following your separation from civilian employment. No credit is allowed in the computation of annuity for the period of service covered by the refund unless redeposit is made. The amount you may owe is approximately $ _____.

ANNUITY

Annuities are computed on full months of service. The estimated annuity below is based on your ☒ Bureau service, ☐ other civilian Government service and/or ☐ military service known to us, totalling **32** years, **10** months and **1** days. CSC makes the official computations and determines whether prior service is creditable, advising you direct the exact amount of your annuity. The figures below are only estimates, and they do not take account of deduction for health insurance coverage. You should receive the first annuity check about 2 months after separating from the Bureau's rolls.

TYPES OF ANNUITY

	With Deposit	Without Deposit	With Redeposit	Without Redeposit	With Deposit & Redeposit
Married applicants only					
☒ Reduced Type of Annuity with benefit to Widow or Widower	$ **1179**	$ **1174**	$	$	$
☒ Annuity Without Survivor Benefit	$ **1285**	$ **1280**	$	$	$
Unmarried applicants only (Including Widowed or Divorced)					
☐ Annuity without Survivor Benefit	$	$	$	$	$
☐ Reduced Annuity with Benefit to Person having an Insurable Interest	$	$	$	$	$
☐ Survivor Annuity (55% of all or whatever portion of your earned annuity you specify) plus annuity for each eligible child.	$	$	$	$	$

SEPARATION FROM ROLLS

Since you ☐ will cease active duty ☐ ceased active duty on **4-22-68** your annuity will commence **5-1-68** immediately following ☐ cease active duty date or ☒ expiration of current accrued annual leave on **4-30-68** earned through **4-19-68**. Item B4 on application ☐ changed to ☒ should be ~~changed to~~ close of business **4-30-68**. If annual leave was or will be used by you subsequent to _____, this date will change and the Bureau should be immediately advised.

☐ If retirement is for disability, separation takes effect after the approval of CSC is received by the Bureau or after the expiration of accrued sick leave, whichever occurs later. Under Internal Revenue Service regulations, some sick pay and disability income is not taxable; thus, you may be able to exclude from Federal income tax liability all or a part of the payments you receive for sick leave used and for annuity received as a disability annuitant. Any such exemption would terminate when you reach normal retirement age. Questions you may have as an annuitant regarding your income tax liability or privileges can be answered by the Internal Revenue Service.

☒ You will receive a lump-sum payment for your accumulated annual leave in the approximate amount of $ **7,450**. A deduction for Federal income tax has been made from this estimate.

FEDERAL EMPLOYEES' GROUP LIFE INSURANCE

☐ Records show you elected Optional Insurance of $10,000 and have Regular Insurance of $ _____.

☒ Records show you declined Optional Insurance but are covered by Regular Insurance of $ 20,000.

☐ Records show you waived both Regular and Optional Insurance.

You may continue your group life insurance coverage following retirement or convert such insurance to an individual life insurance policy without being required to undergo a physical examination. Conversion to an individual life insurance policy necessitates paying the usual premium for a person of your age and class of risk. If you decide to convert, the Bureau should be immediately advised. Otherwise, SF-56, "Agency Certification of Insurance Status," will be forwarded to CSC and a copy sent to you. If you elect to continue Regular Insurance coverage, such protection will continue premium free until you reach age 65. At that time coverage will be reduced 75% (at 2% per month) by the time you reach age 68 years and 2 months. The remaining 25% is also premium free for the remainder of life. Optional Insurance of $10,000, if continued after retirement, will be at full premium cost until you reach age 65. Thereafter, it is cost free for the remainder of life and commencing at age 65 it will be reduced 75% at the same rate as Regular Insurance. The premium cost for Optional Insurance for all employees up to age 34 is $78 per year, from age 35 through 54 it is $156 per year, and from age 55 to age 65, the cost increases to $520 per year. Optional Insurance coverage may be waived at any time by notifying CSC and you may still keep your Regular Insurance. Following retirement, double indemnity benefits concerning accidental death and dismemberment no longer exist for either Regular and Optional Insurance.

DESIGNATION OF BENEFICIARY, STANDARD FORM 54, FEDERAL EMPLOYEES' GROUP LIFE INSURANCE.

Designation filed:

☒ No, but not necessary as beneficiary will be in order of precedence used by United States Government, i.e., (1) widow or widower, (2) children, (3) parents, etc.

☐ Yes; beneficiary designated as _____.
This designation is being forwarded to CSC and it will remain valid unless changed or canceled. Contact CSC for any change desired following retirement.

FEDERAL EMPLOYEES HEALTH BENEFITS ACT OF 1959

☐ Records show you elected not to enroll.

☒ Records show you enrolled in the following plan:

☐ Government-wide Service Benefit Plan (Blue Cross - Blue Shield)

☐ Government-wide Indemnity Benefit Plan (Aetna Life Insurance Company)

☐ Comprehensive Medical Plan

☒ Special Agents Mutual Benefit Association (SAMBA)

Note: The life insurance you have under this plan will continue in force for 6 months following your last semi-annual premium payment. If you desire to continue the protection beyond this time, you may do so without a physical examination. You may elect to continue up to age 70 at group rates a specific amount of your SAMBA Life Insurance. If you presently carry $3,000 of life insurance with SAMBA, you may continue $1,000 after you retire at a cost of $2.25 semiannually. If you presently carry $7,000 to $11,000, you may continue $3,000 at a cost of $11.25 semiannually. If you presently carry $11,000 or over, you may continue $6,000 at a cost of $27.45 semiannually. The life insurance that cannot be continued with SAMBA can be converted to a regular policy with Prudential. At age 70 you may convert the amount of life insurance carried with SAMBA to a regular policy with Prudential.

Your desire in respect to your SAMBA life insurance at retirement should be communicated in writing to SAMBA 1720 Massachusetts Avenue, Northwest, Washington, D. C. 20036. If you have Dependents Group Life Insurance, this will continue until the next semiannual premium is due (1-10 or 7-10), with a 31-day grace period. You may convert the insurance on your spouse to an individual policy with The Prudential Insurance Company of America without a medical examination. The premium will be the same as if your spouse applied for an individual policy at that time. You may make the necessary conversion arrangements through the nearest Prudential Office.

Unless you cancel your present enrollment, you will remain under your health benefits plan after retirement, and your enrollment will be transferred to CSC. The cost of your share of the plan will be deducted from your annuity by CSC.

Enrollment of an employee who dies while he is enrolled "for self and family" continues for his family if at least one family member is entitled to an annuity as the survivor. If the survivor annuitant is the only eligible family member, the retirement system will automatically change the enrollment to "self."

The original of Standard Form 2810, "Notice of Change in Enrollment Status," will be forwarded to you by the Bureau at a later date.

SPECIAL ACCIDENT AND TRAVEL INSURANCE (SATI)

If you are a member of SATI, after your retirement you may continue but not increase coverage up to a maximum of $25,000 at the rate of $2.25 per thousand. If you have coverage on your wife and children, it will continue only until the next premium is due, and cannot be renewed. Further information on SATI can be secured by writing Wright and Co., 1001 Connecticut Avenue, Northwest, Washington, D. C. 20036.

Dear Mr. Hoover:

I certainly enjoyed my visit with you today and I want to again thank you for taking your valuable time to see me.

As I indicated to you, a personal problem, which I have been unsuccessful in solving, makes it necessary for me to respectfully request your permission to retire from the Bureau effective at the close of business April 26, 1968, if that is administratively convenient.

cal date 4-22-68 + effec date 4-30-68 due to current accrued annual leave

This decision, after almost 33 years of service, not only has been the most difficult of my life but also has been of the greatest concern to both my wife and I; however, due to circumstances, I feel it is absolutely necessary that I return to North Little Rock, Arkansas, to assist in the operation of a small but old and rather personal family business left by my father who passed away a few years ago. This sudden decision is necessitated by the health of my brother who has been operating this business.

The opportunity of serving you and the FBI for almost 33 years is a great honor which I shall always cherish, and my wife joins me in again thanking you for this wonderful privilege. I hope I can continue to be considered as a member of the FBI family, ready to serve you at any time I am needed and can be of assistance.

You have our very best wishes and urgent prayers for continued good health and happiness. May this nation and the world receive your much needed advice and counsel for many more years.

Respectfully,

Charles H. Stanley

INSTRUCTIONS TO EMPLOYING AGENCY

1. ***Who must file.***—All employees not excluded by law or regulation from insurance coverage, including those who have previously waived coverage, are required to complete and file Standard Form 176–T. Employees who are in the service on February 14, 1968, as well as those who are appointed after that date but before April 14, 1968, must file the form.

2. ***Automatic cancellation of previously filed waivers.***—All "Waivers of Life Insurance Coverage" (SF 53) on file are automatically canceled as of the first day of the first pay period beginning on or after February 14, 1968. Payroll offices are to begin regular insurance deductions on the automatic cancellation date for employees who do not file a new waiver, i.e., those who do not check box **C** of SF 176–T, on or before that date.

3. ***Employees failing to file.***—If an employee does not return a completed SF 176–T, contact him and urge him to do so even if he does not want optional insurance (he will, of course, be automatically covered for regular insurance). If he still fails to file SF 176–T by April 14, 1968, or 31 days after appointment, whichever is later, file one for him as of that date: mark box **B**, and note in the space provided for his signature "employee contacted—failed to elect optional insurance." See note 2 below.

4. ***Review of completed forms.***—(a) Review both copies of the SF 176–T for legibility, completeness, and consistency. Reconcile with the employee any obvious major discrepancy such as a mark in more than one box.

   (b) If the employee marked box **A** or box **C**, make sure the Statistical Stub is complete. Then detach and mail stubs, in a bundle, weekly to:

   Office of Federal Employees' Group Life Insurance
   (Statistical Study)
   4 East 24th Street
   New York, New York 10010

   (c) If the employee marked box **B**, detach and destroy the stub.

5. ***Date of receipt and effective date.***—(a) Stamp date of receipt by employing office in the space provided for this purpose on both the Original and the Duplicate.

   (b) The effective date is determined from the table below.

6. ***Disposition of forms.***—(a) File the Original SF 176–T in the official personnel folder in all cases.

   (b) Any necessary payroll change, with effective date, may be posted in the space reserved on the Duplicate for employing office.

   (c) The Duplicate may be destroyed, if no payroll action is required, or after the requirements of the agency's payroll system have been met.

7. ***Use of SF 176–T.***—SF 176–T "Election, Declination, or Waiver of Life Insurance Coverage" should not be used after the initial filing period (after April 14, 1968). A revised edition will be available for use after that date.

TABLE OF EFFECTIVE DATES

DATE SF 176–T RECEIVED BY EMPLOYING OFFICE	EMPLOYEE'S DECISION	EFFECTIVE DATE (IF NO WAIVER, SF 53, IN EFFECT)	
		OF DECISION	OF DEDUCTIONS
On or before February 14, 1968.	Elects optional (in addition to regular) (box A).	Coverage effective February 14, 1968.	Deductions begin 1st day of 1st pay period beginning on or after February 14, 1968.
	Declines optional (but not regular) (box B).	Declination effective February 14, 1968.	
	Waives regular (so ineligible for optional) (box C).	Waiver effective last day of pay period in which February 14, 1968 falls.	Deductions stop last day of pay period in which February 14, 1968 falls.
After February 14 but not later than April 14, 1968.	Elects optional (in addition to regular) (box A).	Coverage effective on date of receipt.	Deductions begin 1st day of 1st pay period beginning on or after date of receipt.
	Declines optional (but not regular) (box B).	Declination effective on date of receipt, but employee loses automatic optional protection on February 14, 1968.	
	Cancels previously elected optional (but not regular) (box B).	Cancellation effective last day of pay period in which received.	Deductions for optional stop last day of pay period in which received.
	Waives regular (so ineligible for optional) (box C).	Waiver effective last day of pay period in which received.	Deductions stop last day of pay period in which received.

NOTES: 1. Because regular insurance coverage and deductions are automatic unless waived (by checking box C), A and B elections do not affect regular insurance effective dates.

2. An employee for whom the agency files SF 176–T because he failed to file is deemed to have declined optional, but not regular, insurance.

3. An employee with an uncanceled waiver (SF 53) on file cannot be insured any earlier than the first day he is in duty and pay status in a pay period beginning on or after February 14, 1968; filing of an SF 176–T before that date will not cancel an SF 53 any earlier. Deductions begin the day he becomes insured.

4. The effective date of regular (and optional) insurance coverage for an employee who has been on leave without pay for more than 1 year is the first day he is in pay and duty status. Deductions are effective the same day.

Honorable Andrew E. Ruddock
Director
Bureau of Retirement and Insurance
Civil Service Commission
Washington, D. C. 20415

Dear Mr. Ruddock:

There is enclosed an Application for Retirement executed by Charles H. Stanley, an Inspector of this Bureau, who has indicated that he desires to retire April 30, 1968. A copy of his Form 2806 is also enclosed.

Our Inspection Staff is charged with the responsibility of supervising the investigation of violations of laws of the United States and performing other duties imposed by law, in addition to other functions. Mr. Stanley has participated in these duties which are hazardous in nature. His services have been entirely satisfactory and he has met the requirements necessary to retire under the provisions of Section 6(c) of the Civil Service Retirement Act, as amended.

In accordance with the action of the Attorney General delegating authority to me to make appropriate recommendations in connection with applications for retirement from employees of the Federal Bureau of Investigation, I hereby recommend that Mr. Stanley's retirement be approved.

Inspector Stanley saw the Director March 26, 1968, and received permission to retire after more than 32 years of Bureau service. He has indicated he would greatly appreciate having his four service award keys mounted on a plaque as a permanent memento of his long FBI service.

The Director originally approved preparation of such a plaque 2-14-58, in connection with those Special Agents who retire with 30 years or more service and who request it. A special plaque was designed for this purpose and a photograph is attached. A small gold replica of the FBI Seal is mounted on the plaque in addition to the four service award keys.

      (3) More than 75 days have elapsed from the date insurance terminated unless specific request is made therefor by the Civil Service Commission or the Office of Federal Employees' Group Life Insurance.

2. Retirement of employee—
   a. If the employee is applying for an immediate annuity (with 12 or more years' creditable service, of which at least 5 years are civilian service or for disability), attach the original Certification and current designation of beneficiary, (S.F. 54), if any, to the application for retirement and give duplicate copy of Certification to the employee. [NOTE: In a disability retirement case where the application has already been sent to the Civil Service Commission, attach the original S.F. 56 (and S.F. 54, if any,) to the "FINAL" Individual Retirement Record (S.F. 2806).]
   b. If the employee prefers to convert his group insurance to an individual policy, give him the original and duplicate copy of the Certification. Retain S.F. 54, if any.

Hardware

A 33-year FBI agent starts a new career

By BOB LANCASTER
Democrat Staff Writer

Drove over yesterday to North Little Rock to find out why Charles Herbert Stanley quit his job last year as inspector of the Special Investigative Division of the FBI in Washington to come back and help his brother run the family hardware store.

The little store sits almost under the imposing Freeway overpass at Levy and is piled so high with hardware that the wheelbarrows stacked outside look like overflow. Inside, the walls are decorated randomly with gadgets and gismos from fan belts to mailboxes, and floor space is at a premium. Everywhere you turn there is a head-high stalagmite of screen wire, or copper pipe, or herbicides, or funnels and oil cans, or aluminum extrusions, or garden seed. Even the space underneath the counters is put to use—a locus for the revolving cloverleaf-shaped bins of nails.

COLUMN ONE: Lancaster's Arkansas

I SPOTTED Stanley, a tall man with glasses and black hair who doesn't look 57 years old, scooting between the displays, looking for something for somebody, a big cigar in his mouth. He had a smile that lurked even when he wasn't smiling, and it betrayed eventually a survivor of an endangered species—a happy man. He said locating plumbing fixtures gives him more trouble now than anything else. His brother, Clarence, 53, who has run the store since the end

of World War II, is an old master at that. Clarence, he said, "is a real hardware man."

I interviewed Inspector Stanley at a scarred desk and stool that was located somewhere in the midst of the chaos. He said he started his FBI career as a clerk-typist for the Little Rock office in 1935, just after he got out of Draughon's School of Business. Worked his way to the top echelon, if not the top—including stints as assistant agent in charge in Little Rock, as agent investigating espionage cases in New York during the war, as a ramrod for the controversial Government Securities Program, and finally as a supervisory inspector in the Washington FBI's inner sanctum.

TURNED OUT that the reasons for his retirement and launching of a new career in hardware were not very romantic. He liked life in Washington. There was no disillusionment with J. Edgar Hoover, who might as well have hung the moon, or with the bureaucracy. He thrived on the pressure of the division, which specializes in battling, among other things, organized crime. There was none of the hokey nostalgia about going home again. Nor the poetic notion of simplifying and uncluttering life; finding a new batch of values among roofing nails and shovel handles.

It was "family tradition" that led him back to North Little Rock and the hardware business, he said. That is elusive, but it is of no little importance to him that J. W. Stanley, his father, gave the Stanley Hardware Co. the last 60 years of his life. It is not an odd goal to want to perpetuate that effort, especially in a man who spent 33 years under the strong-willed Hoover, who makes a fetish out of that very "family tradition."

"HARDWARE IS like anything else," Herb Stanley said. "I like to meet people, talk to people. You have that in hardware and law enforcement. In that respect, hardware and law enforcement are a lot alike."

Forego the temptation to say that, in that respect, so are preaching and loan sharking. Because during the course of the interview you can see for yourself what he means. Besides, a man who is kept hopping — looking for cheap tin snips, quart fruit jar lids, garden plow handles and the like — is not any position to concern himself with the incisiveness of a metaphor.

Dear Mr. Hoover:

Last evening I had the privilege of attending the annual convention of the Arkansas Municipal Police Association in North Little Rock, Arkansas. Mr. George Zeiss was the main speaker, and I wanted you to know of the very interesting and extremely inspiring address given by Mr. Zeiss. Law enforcement in Arkansas will certainly benefit from your permitting Mr. Zeiss to appear, and his remarks were highly effective and well received.

Special Agent In Charge Hoxie and Assistant Special Agent In Charge Hogan of the Little Rock office were present at the convention, and I was very impressed with the spirit of cooperation between the police officers and representatives of the Bureau. A number of National Academy graduates, including the new Little Rock, Arkansas Chief of Police, Gale Weeks, attended the meeting. During a conversation with Chief Weeks, he specifically expressed his appreciation for having been permitted to attend the FBI Academy and mentioned how proud he is to be a graduate.

Under your leadership, the FBI obviously continues to be the most important force in effective law enforcement in this country and, as a former FBI representative and a citizen, I again want to pledge my complete support.

Dear Mr. Hoover:

I have just returned from the Annual Convention of the Society of Former Special Agents of the FBI, where I had the pleasure of hearing Assistant Director Joseph Casper. Mr. Casper gave an inspiring talk which was the subject of highly favorable comment among the members of the Society. His appearance was one of the highlights of the meeting, and we are certainly indebted to you for designating him to bring your message to the Convention.

I have been following with keen interest the many new and important responsibilities being assigned to the FBI. While we recognize the already staggering load under which the Bureau is operating, the fact that President Nixon and the Congress again has come to you in these explosive times is a great tribute to you. We are reminded daily of your warnings for many years, calling for a greater respect for law and order and a strict enforcement of our laws.

My wife joins me in sending our very best wishes to you and Mr. Tolson. If there is anything I can do to assist the Bureau, please let me know. It would be a great honor.

Dear Mr. Hoover:

I have just recently returned home after attending the annual convention of the Society of Former Special Agents of the FBI at Atlanta, Georgia. While I have been delayed in writing you, I still wanted to thank you for designating Assistant Director Tom Bishop to represent you at the convention.

In addition to delivering an outstanding talk, Mr. Bishop's presense added much to the convention in many other ways. I have attended several conventions and, without question, the warm and loyal feeling toward the Bureau never has been greater - a high tribute to your dedicated and effective leadership of a wonderful organization.

May we again assure you of our desire to help in any small way possible, and extend our very best wishes to you and Mr. Tolson.

Respectfully,

Charlie Stanley

Mr. Clarence M. Kelley
Director
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Kelley:

We certainly enjoyed seeing you again at the San Diego Convention. Taking time from your busy schedule to visit with us was a tremendous honor to each and every member of the Society.

In addition to our national conventions, the X-Agents also holds regional meetings each year. The 1974 meeting of the South Central Division, which covers Arkansas, Colorado, Wyoming, Kansas, Missouri, New Mexico, Oklahoma and Texas, will be held in Little Rock, Arkansas on March 30th. Members of our Arkansas Chapter, together with former SAC Leonard Blaylock, our regional Vice-President, join me in extending an invitation to you to visit with us during this meeting. It would be a great honor to our State, our Society and particularly our Chapter to have you as our guest on the evening of March 30th. The occasion will consist of a brief social period, followed by a dinner.

In addition to delegates from 13 chapters, the meeting will be attended by the current President of our Society, Mr. Dale Stoops, from California, our immediate past-President, Mr. James Fogarty of New York City, and our President-elect, former SAC Bill Murphy of Dallas. Leonard Blaylock of San Antonio will also attend this meeting as the presiding official. Of course, members of our Arkansas chapter, numbering approximately thirty-five, and their wives will be attending, along with some members and wives from nearby chapters. SAC Ray Faisst, ASAC Johnson, and other personnel from the Little Rock FBI office will be invited.

REC-127

We fully realize your heavy and demanding schedule but still desired to extend this sincere invitation to you and your wife, with the thought in mind that it might fit into your plans. We recall with pleasure you having lunch with delegates at our Kansas City meeting.

We would appreciate receiving advise from you.

Respectfully,

Charlie
